SERVICE DELIVERY CHARTER

Who are we?

The Forestry Development Authority (FDA) is an autonomous agency of government created by an act of Legislature on December 20, 1976, that is responsible for sustainably managing and conserving the first and related resources for the benefit of current and future generations in Liberia. The FDA uses the 4Cs approach: COMMERCIAL, CONSERVATION, COMMUNITY, and CARBON philosophy to achieve its goals.

Vision

The vision of the FDA is “a leading authority in West Africa in providing quality, sustainable, and transformative forest and wildlife resources management for the socio-economic prosperity of Liberians while contributing to national and global benefits.

Our Mission

FDA is a more credible forestry institution that promotes best forestry practices and guarantees sustainable forest management for the benefit of Liberians.
