

Project Reference PO 6380

## Establishing and Operating a Timber Legality Verification Department (LVD) within Liberia's Forestry Development Authority (FDA) and Building Capacity within FDA

## Deliverable D28 – Monthly Market Report

Work Package 0.1- Project Initiated

June - 2016

Co-Funded by

This project is co-funded by  
the European Union

## Acronyms and abbreviations

DFID	Department for International Development
EU	European Union
FDA	Forestry Development Authority
FLEGT	Forest Law Enforcement Governance and Trade
FOB	Free on Board
GOL	Government of Liberia
ITTO	International Tropical Timber Organization
SGS	SGS Société Générale de Surveillance S.A. or SGS Liberia Inc.
USD	United States Dollar (US \$)

## Introduction

This Monthly Market Report provides a compilation of international market prices of logs and timber products which can be used in verifying declared timber value.

It should be read parallel to the monthly COC operation report (Deliverable D02/5) for a better understanding of the harvesting and exports figures of the month as it relates to indicated market prices.

This report presents both the timber products market prices of the current month (1) and the evolution of the timber product prices for each commercial species since the 1<sup>st</sup> of April 2013.

The sources of information used in this report are:

- The **FOB prices** used by the FDA to calculate the stumpage and export tax fees are presented in comparison of the monthly market prices;
- Several International Consultants provided the monthly market prices to SGS after conducting investigations through their own networks;
- In addition, SGS has studied the timber market prices published by the **International Tropical Timber Organization (ITTO)**.

All the prices shown in this report are in USD. The exchange rate used is 1.13056USD for 1 Euro (25/06/2016).

## 1 Timber products market prices – June 2016

The table below presents the markets prices for logs and sawn wood as well as the monthly evolution of the prices (USD/m<sup>3</sup>). Besides, these prices are compared to the official FDA-FOB prices and the ITTO prices when available.

Only the higher and the smallest found prices of the international consultants are listed on the table below in order to make the table easier to understand.

As illustrated below, the average official FOB prices used by FDA are corresponding to the third grades logs and are far below the sawn wood market prices.

Except for some Chinese buyers trying to bring down some prices, other markets are stable and are active buyers. For Middle East and Asia the demand is good and trending higher, prices unchanged and firm. Buying for mainland Europe will remain slow until the end of the 3rd quarter but the industry is not overstocked and will need to make winter purchases at normal levels.

### Brexit to impact tropical imports in the short term (ITTO)

The UK's decision to leave the EU, so-called "Brexit", has created a crisis for the global economy. Brexit will have significant implications on the tropical timber sector. The UK is the largest importer of tropical timber in the EU with around 25% of the total value imported into the EU from tropical countries.

Uncertainty and a slowing of economic growth in the UK and the EU will have an immediate impact on imports of wood products from tropical countries. Longer term, the prospects for tropical timber in the UK and the EU will depend on how quickly the UK and the EU recover from this shock.

Table 1 - Wood products monthly market prices (June 2016 - \$USD/m<sup>3</sup>)

## 2 Timber products price evolution

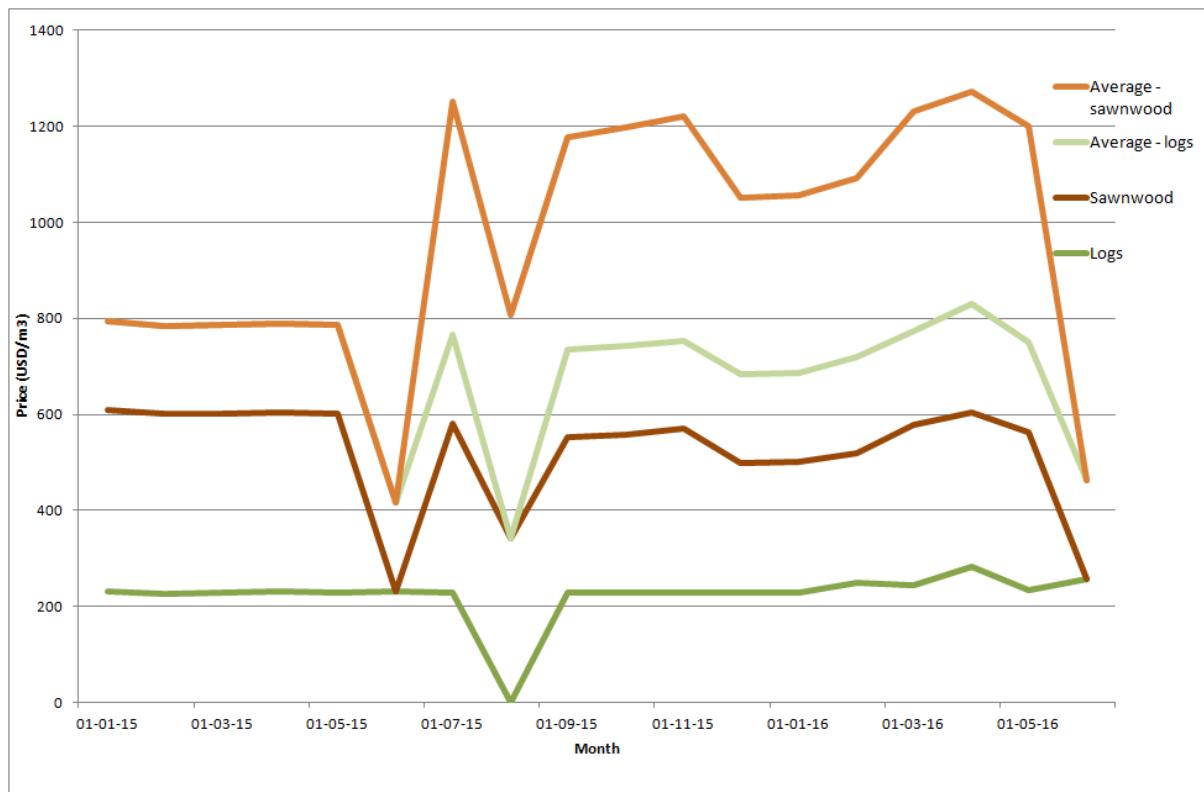

The figures below are illustrating the prices evolution of the wood products since January 2015 (USD/m<sup>3</sup>).

- “Logs” and “Sawn wood” are understood as the monthly market prices for the timber products (all qualities mixed) of the species indicated in the title of the section;
- “Average logs” and “Average sawn wood” are the average market prices (all qualities mixed) of all the species investigated in the report.

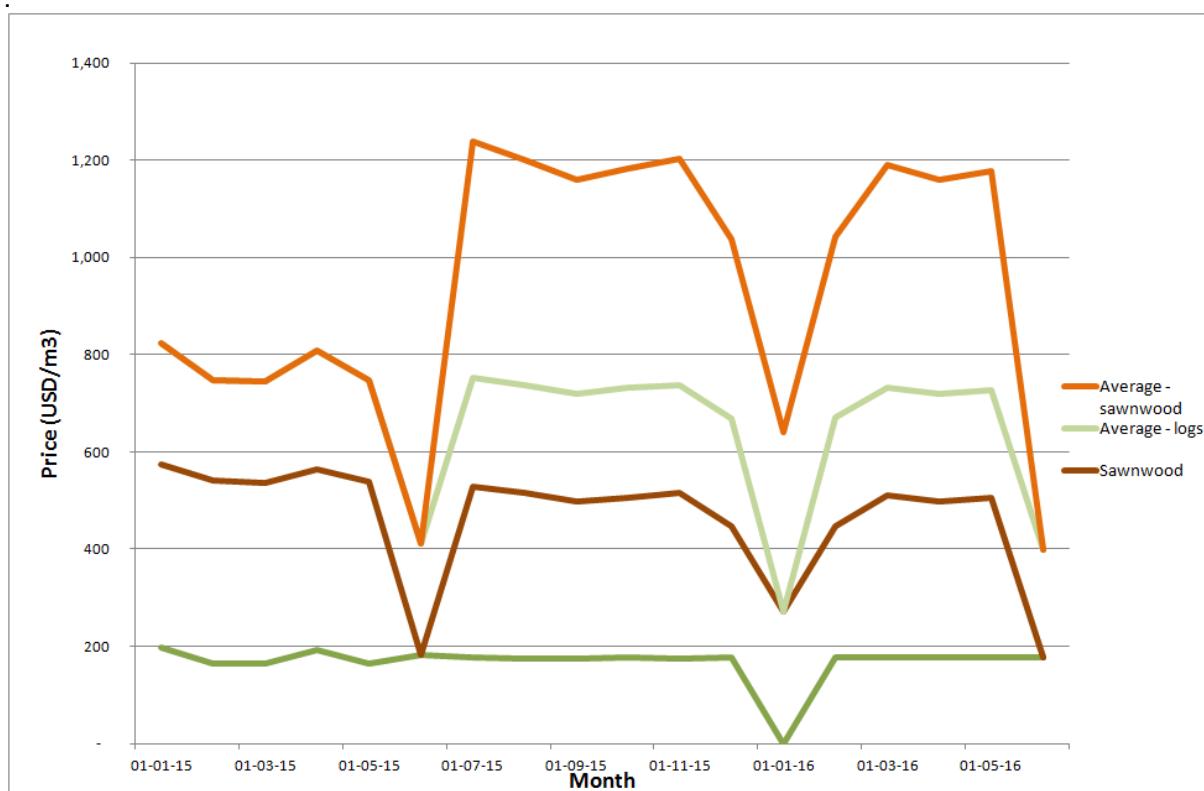

### 2.1 Abura - *Hallea ciliata*

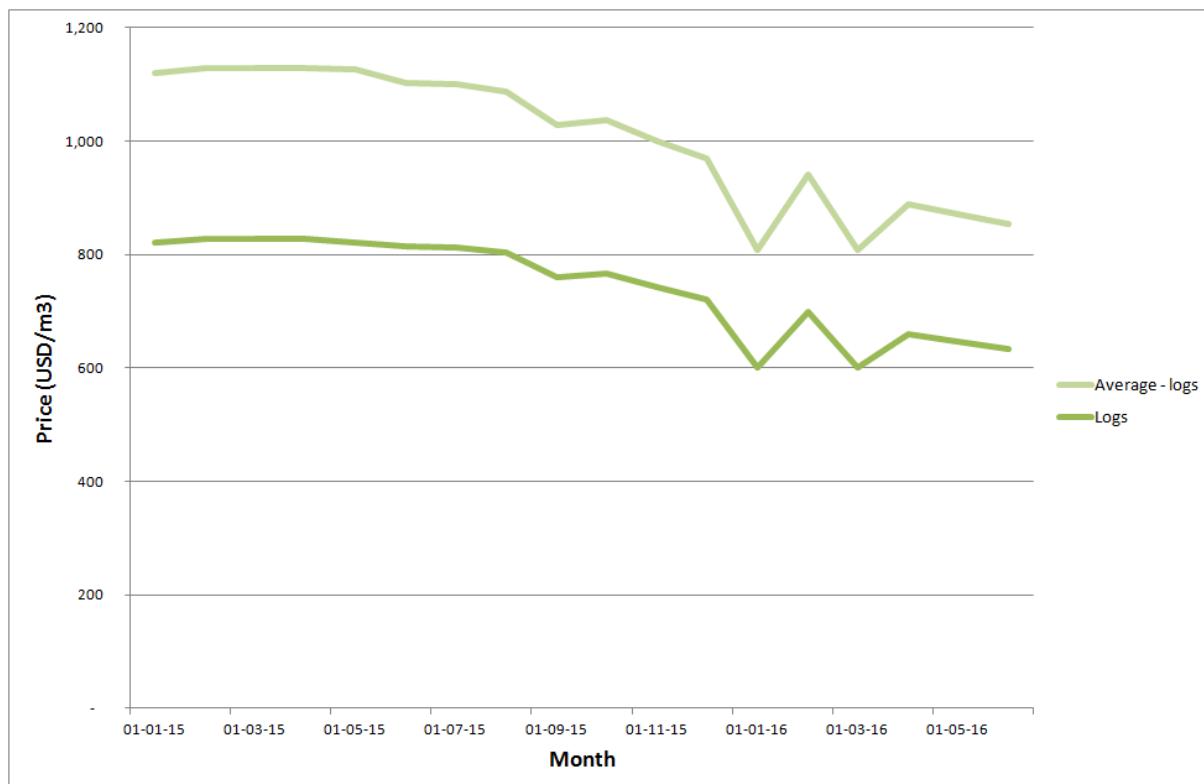

## 2.2 Acajou Bassam / Khaya - *Khaya ivorensis*

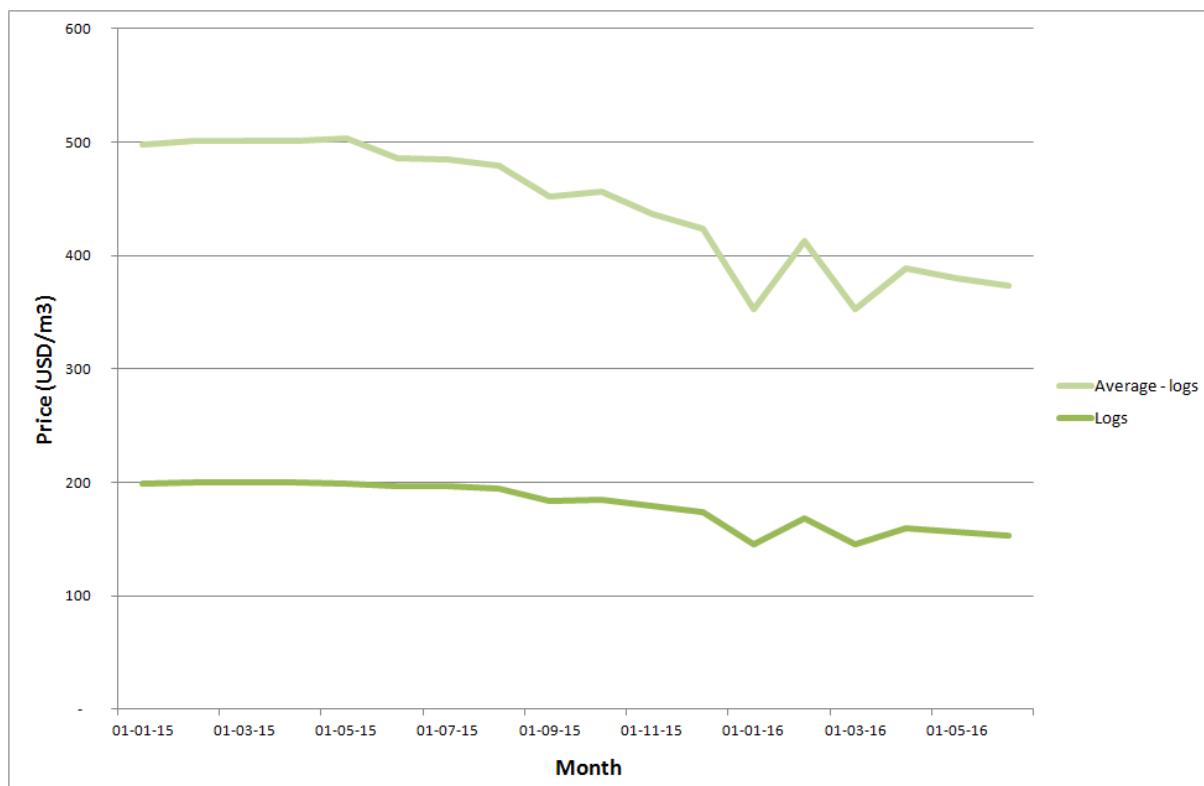

## 2.3 Acajou blanc / Khaya - *Khaya anthotheca*

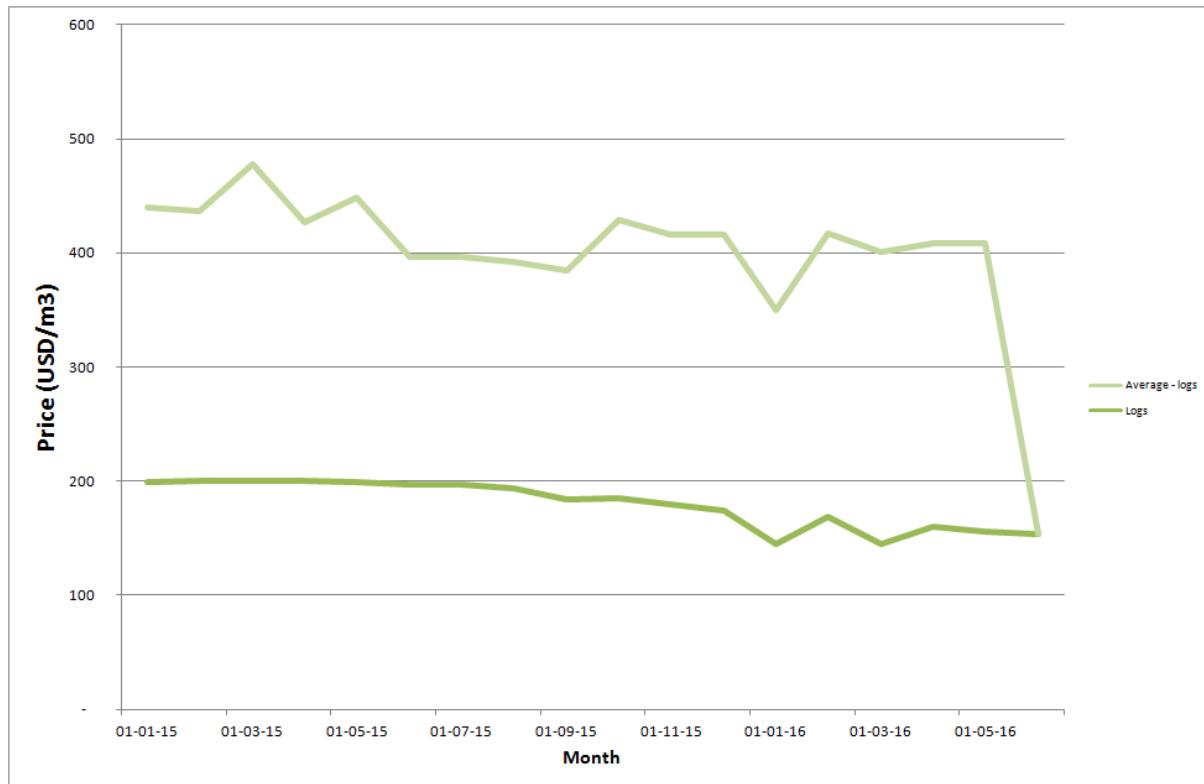

## 2.4 Afrormosia - *Pericopsis elata*

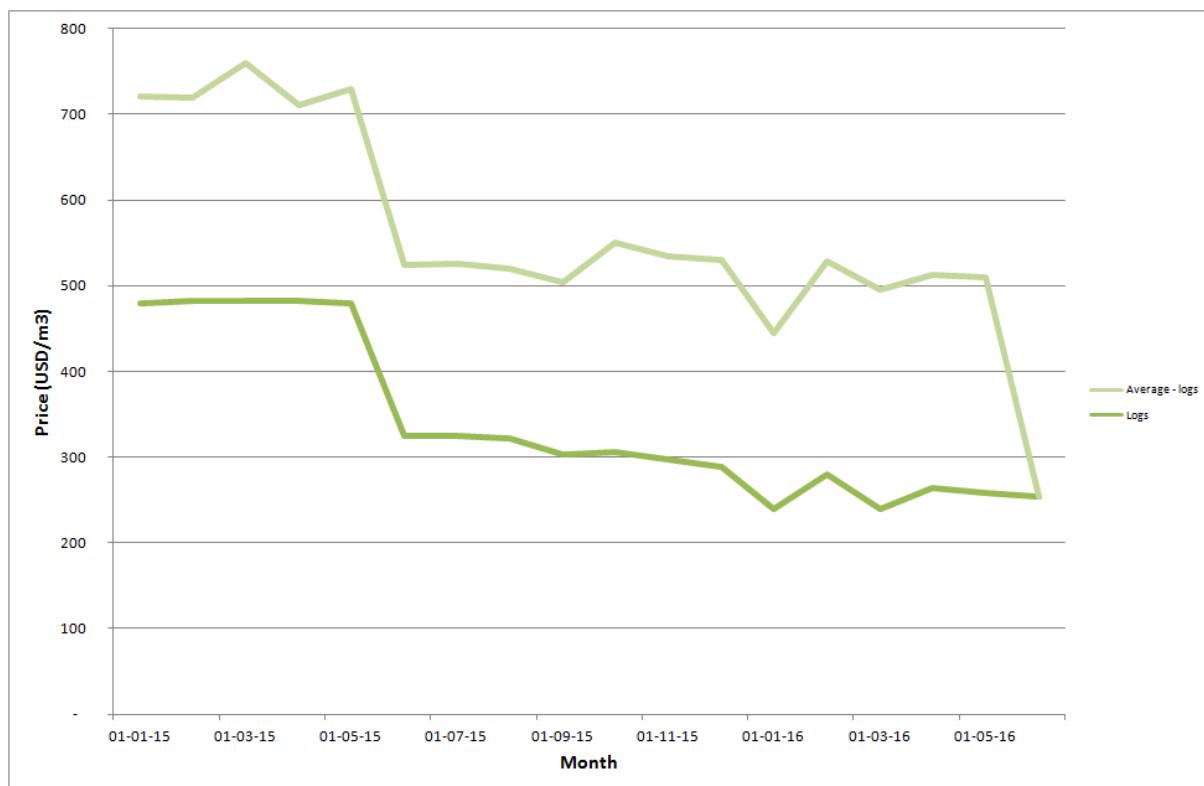

## 2.5 Aiele - *Canarium schweinfurthii*

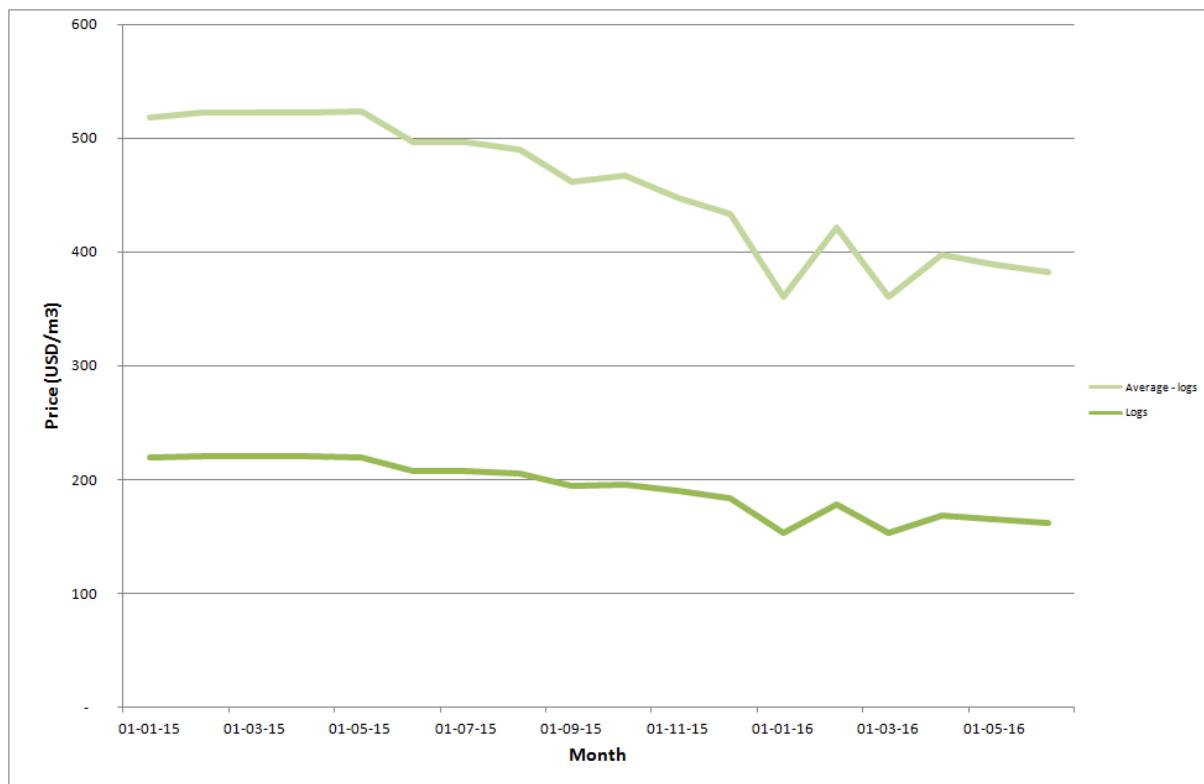

## 2.6 Ako - *Antiaris toxicaria*

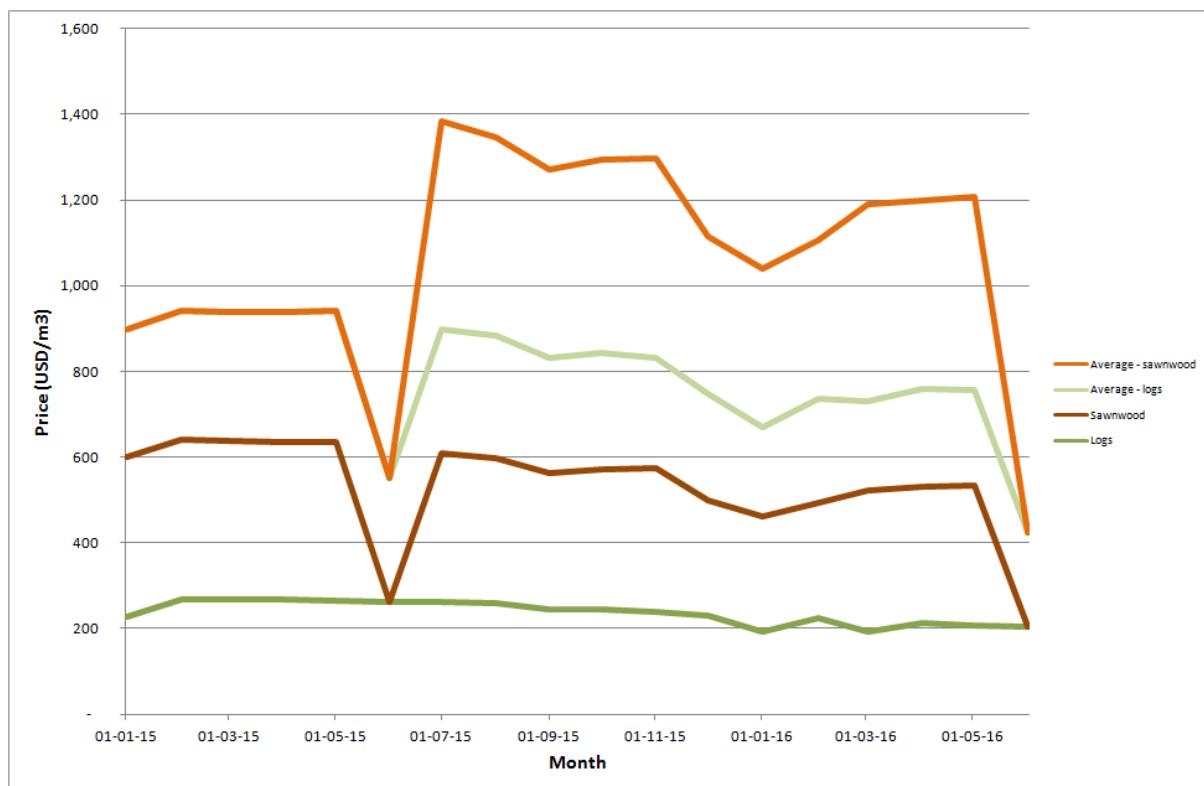

## 2.7 Aningre - *Aningeria robusta*

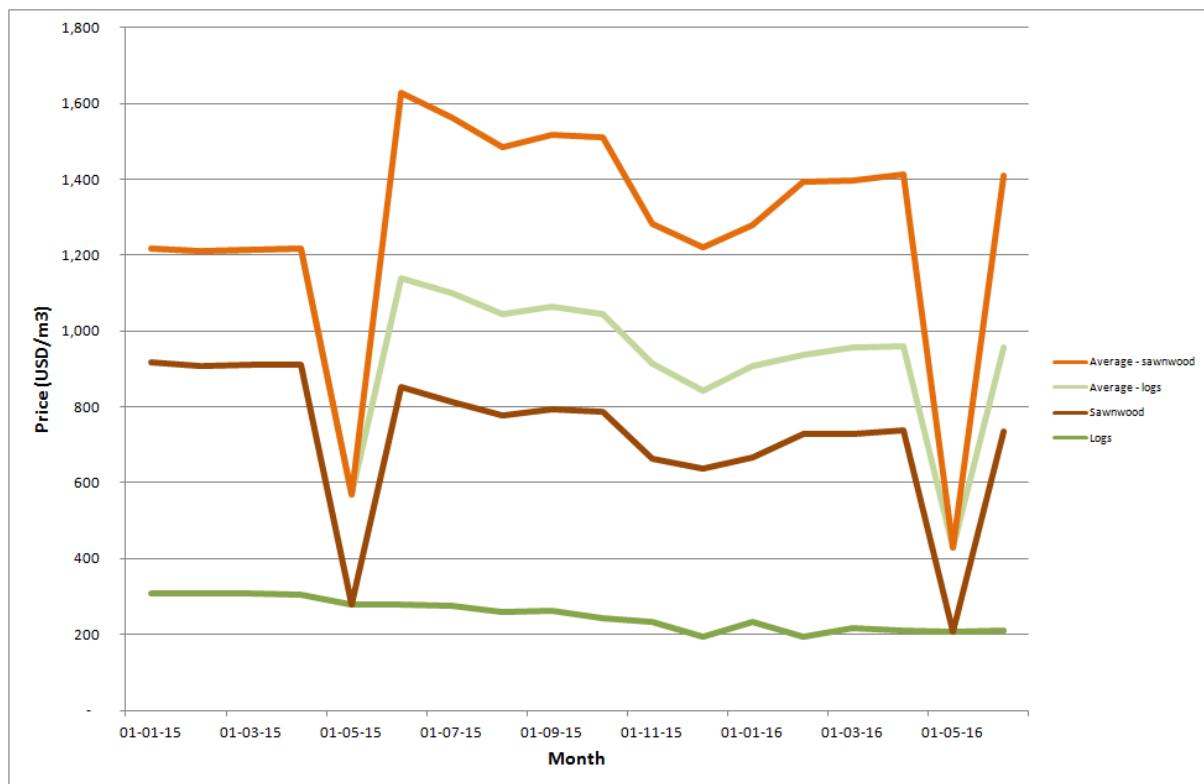

## 2.8 Avodire - *Turraeanthus africanus*

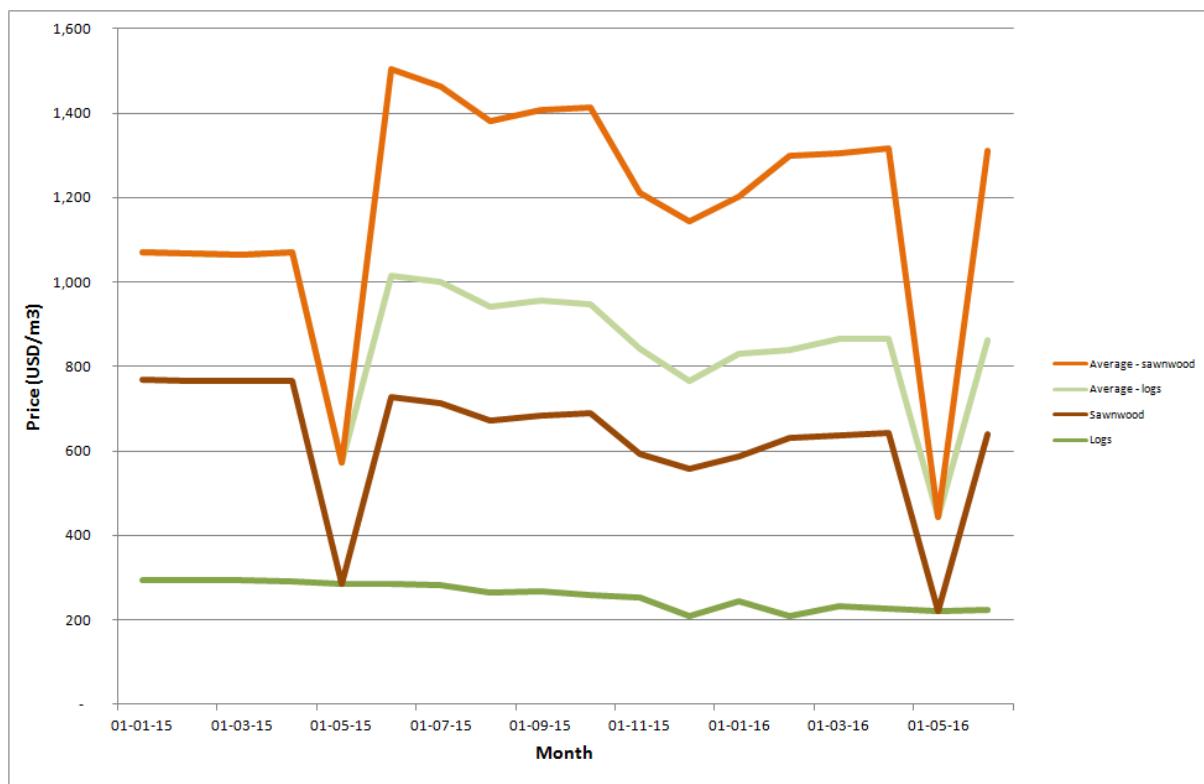

## 2.9 Ayous/ Wawa/ Samba - *Triplochiton scleroxylon*

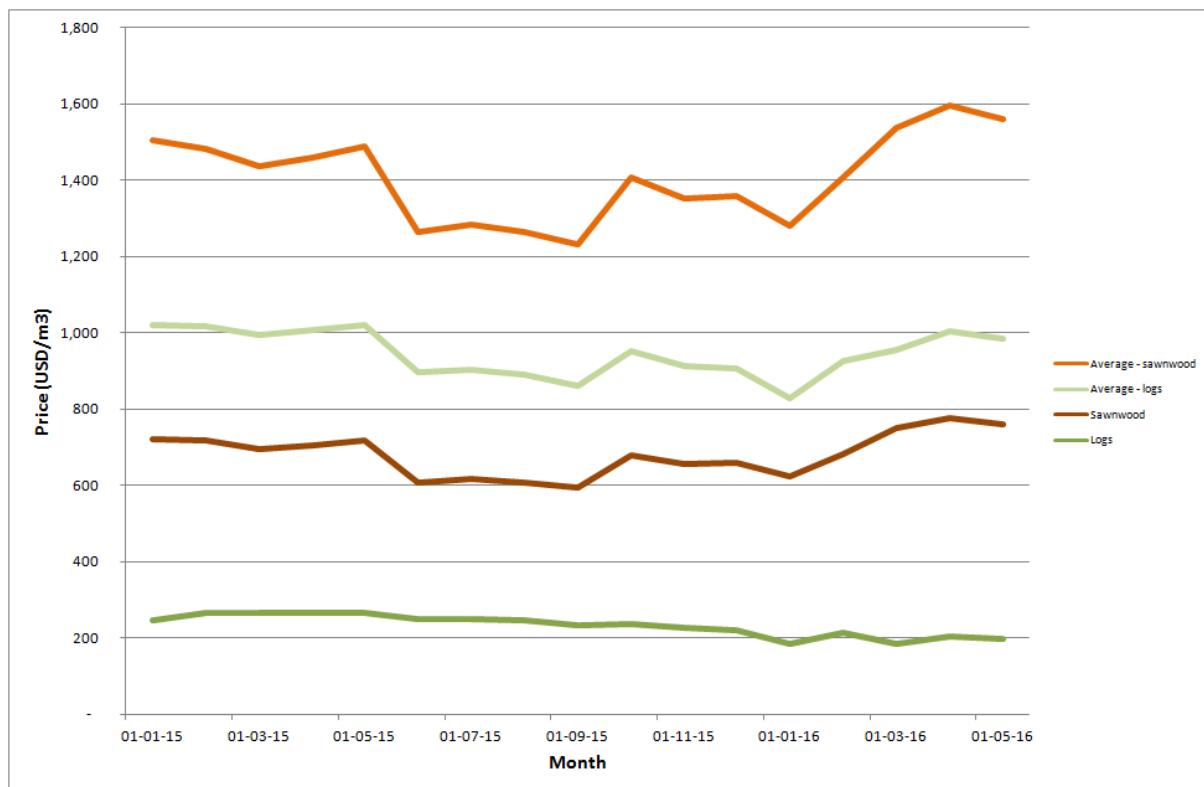

## 2.10 Azobe/ Ekki - *Lophira alata / procera*

## 2.11 Bete / Mansonia - *Mansonia altissima*

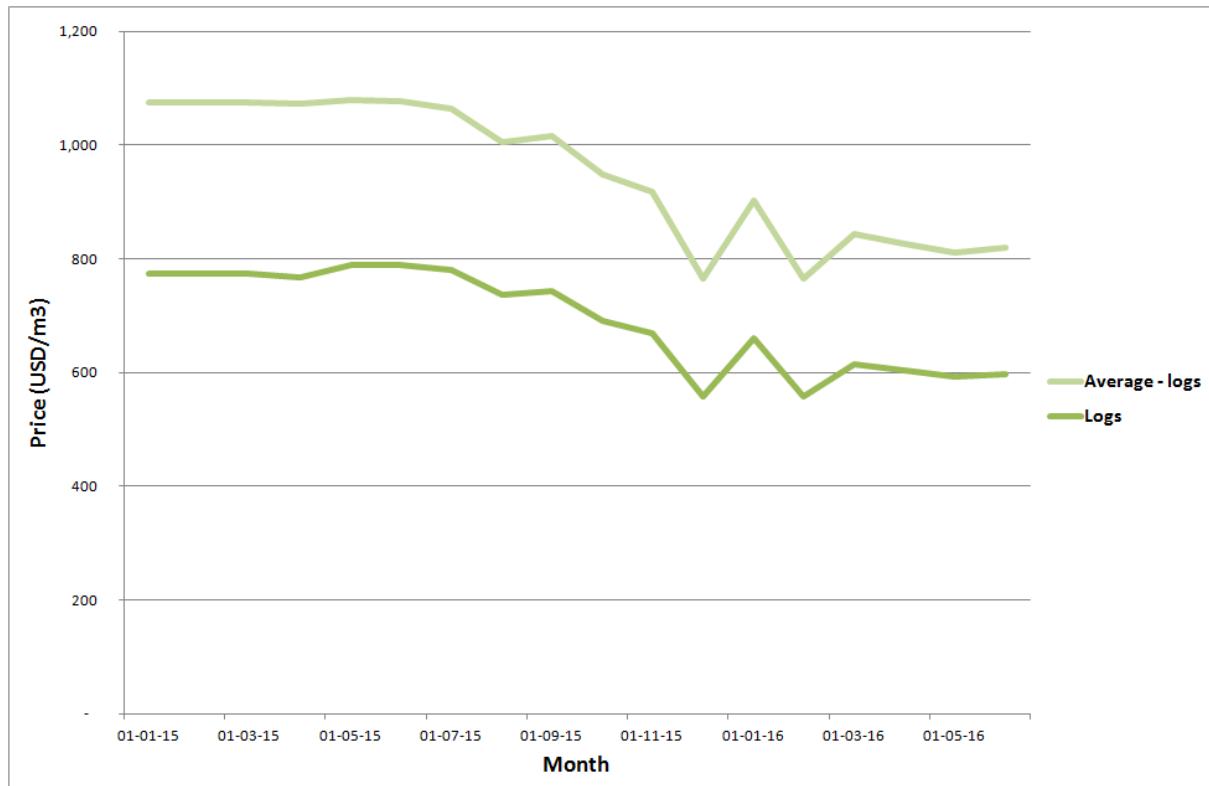

## 2.12 Bilinga/ Kusia - *Nauclea diderrichii*

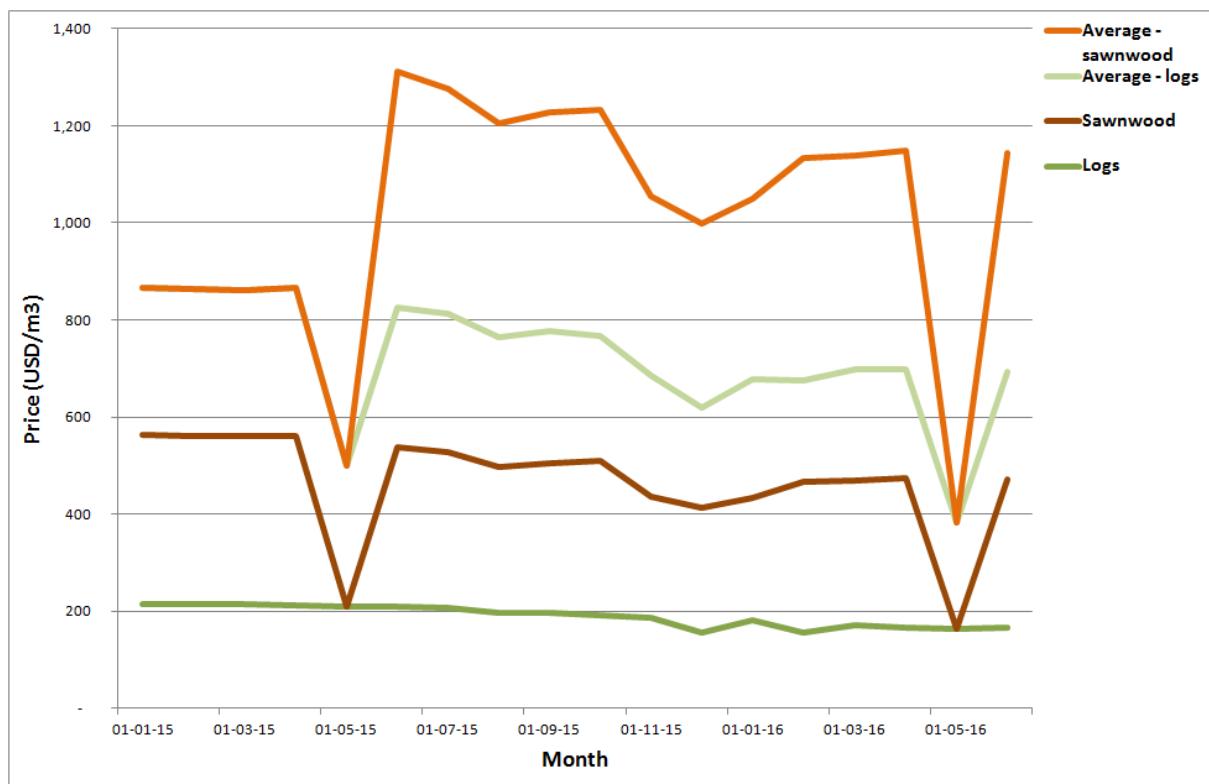

## 2.13 Bosse - *Guarea cedrata*

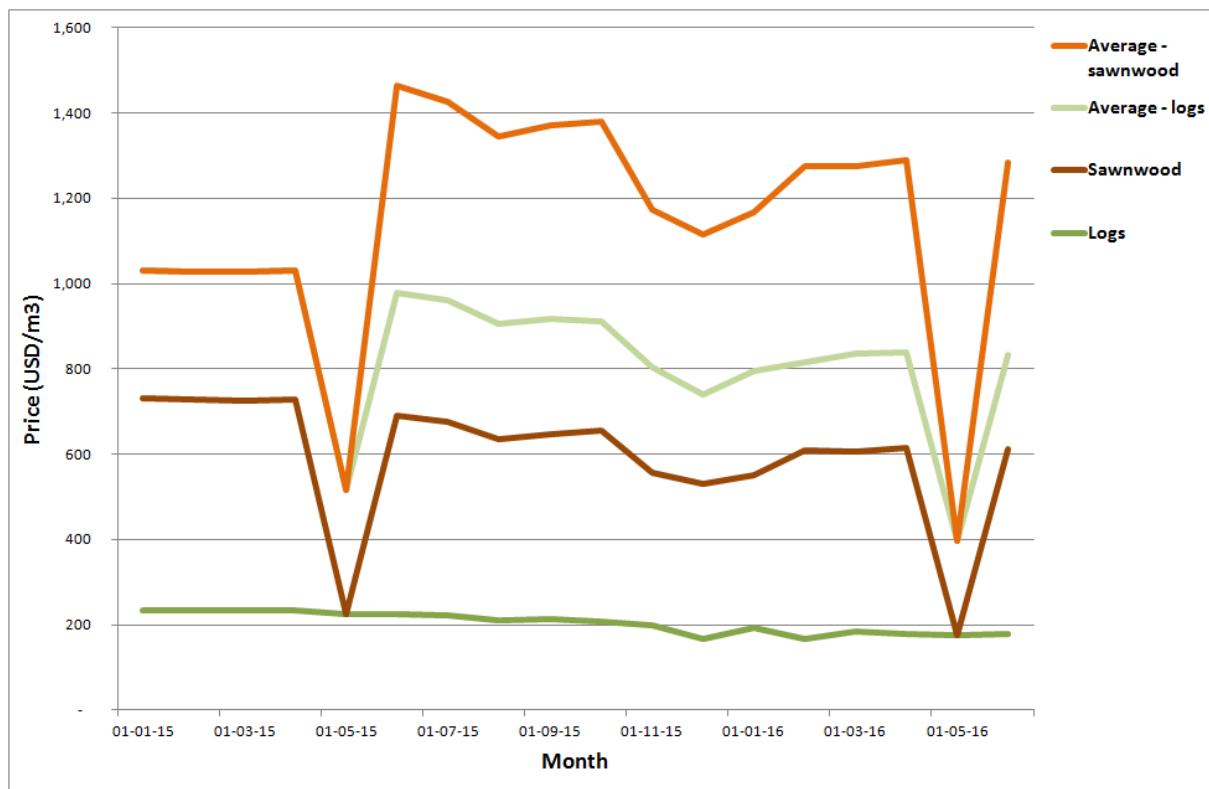

## 2.14 Bubinga - *Guibourtia ehie*

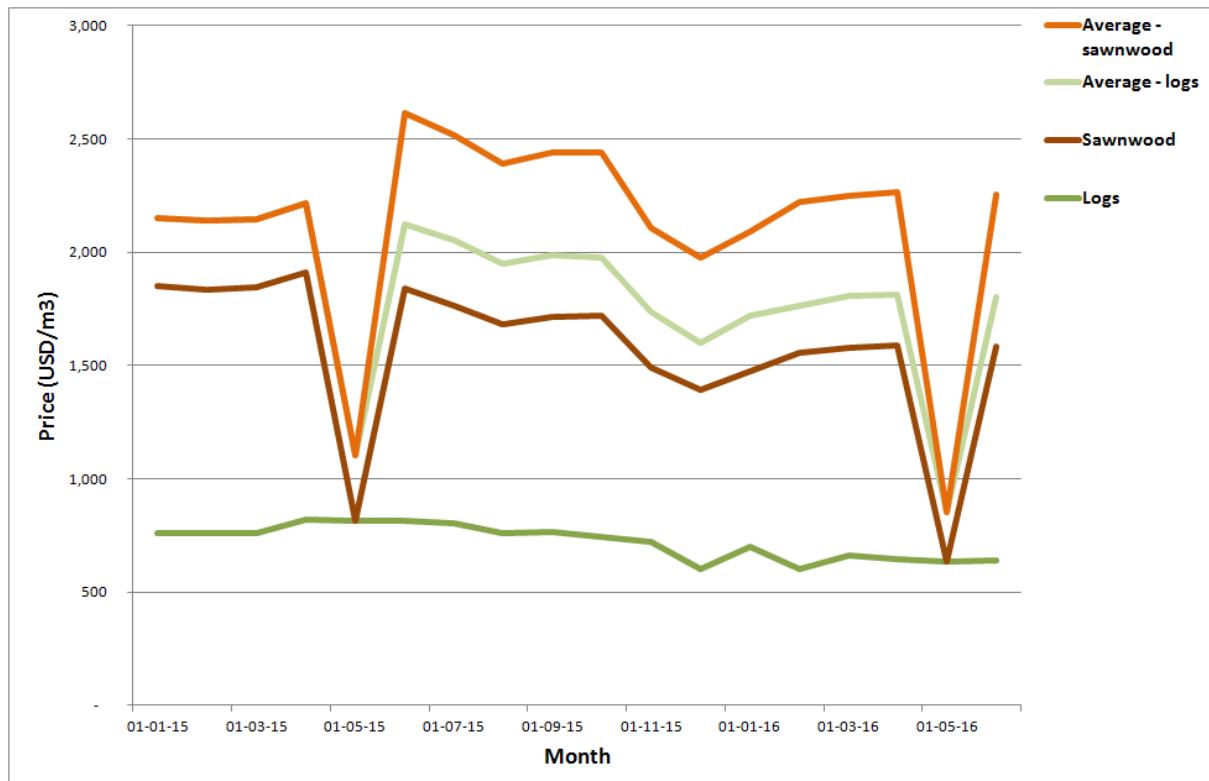

## 2.15 Dabema - *Piptadeniastrum africanum*

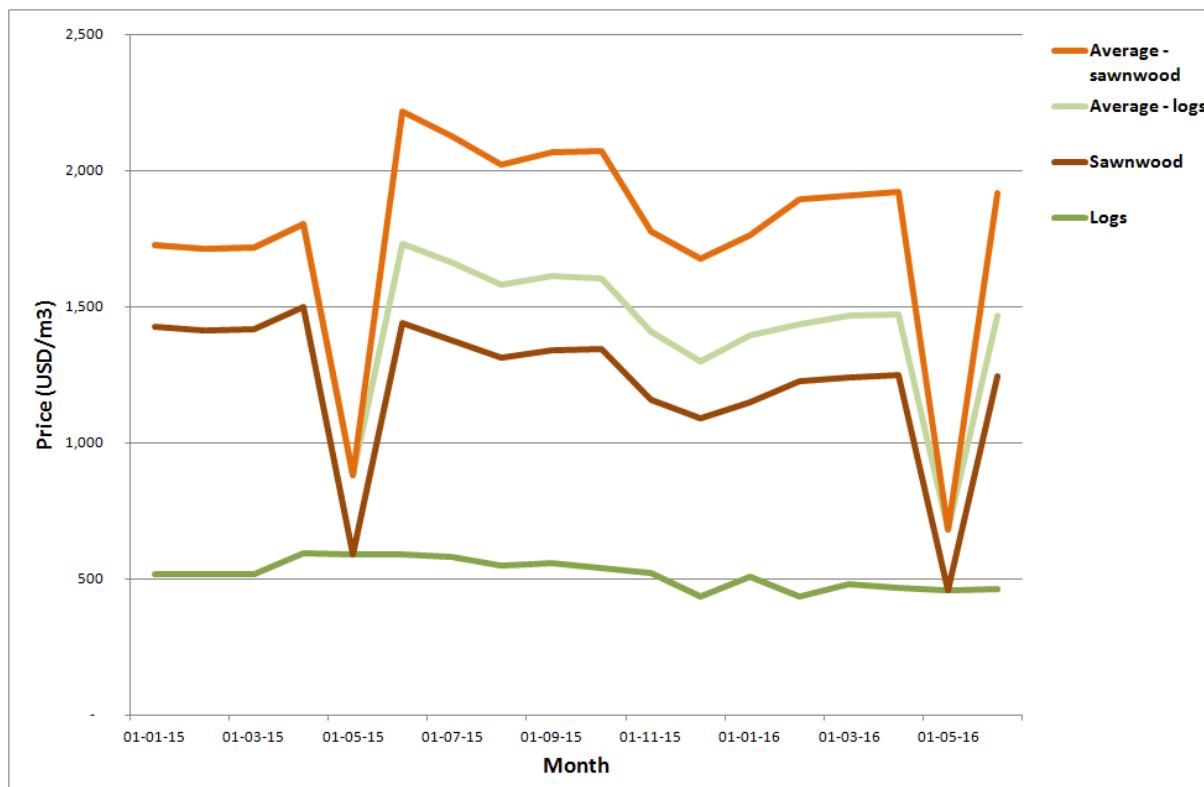

## 2.16 Dibetou - *Lova trichilioides / klaineana*

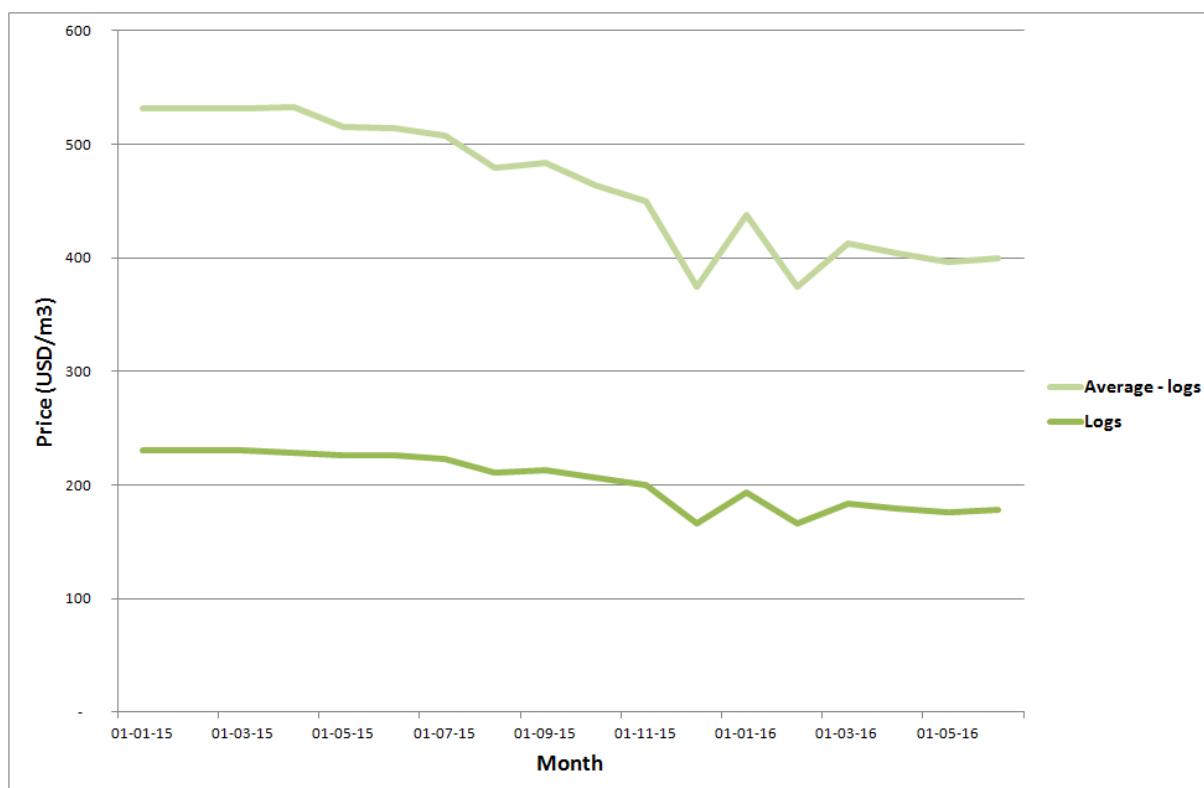

## 2.17 Doussie - *Afzelia bipindensis*

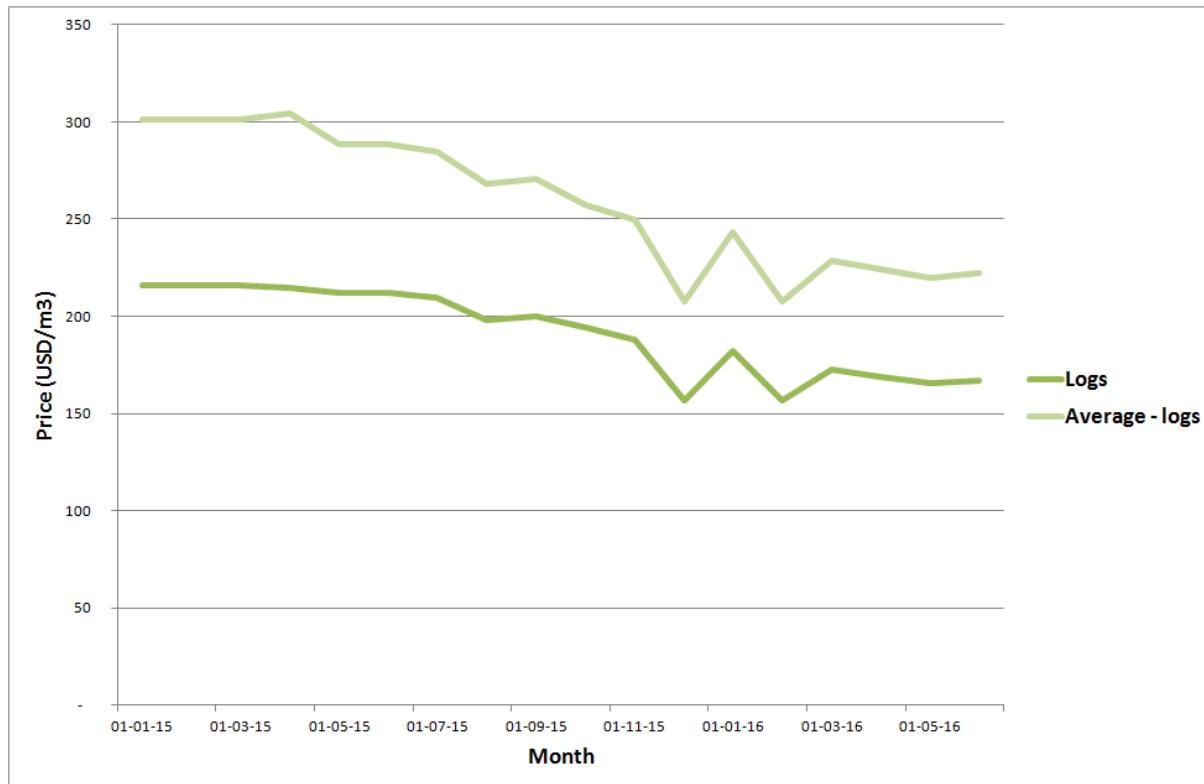

## 2.18 Doussie pachyloba - *Afzelia africana/ pachyloba/bella*

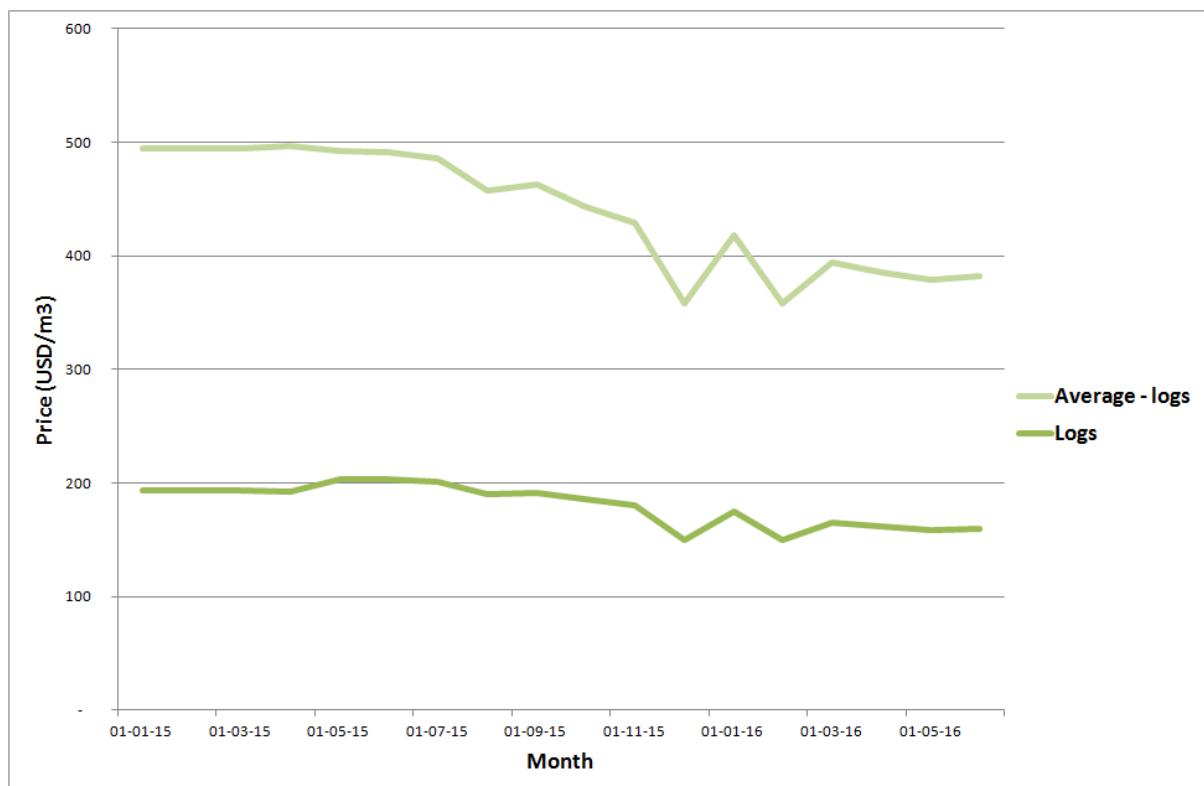

## 2.19 Ebiara - *Berlinia bracteosa/ confusa*

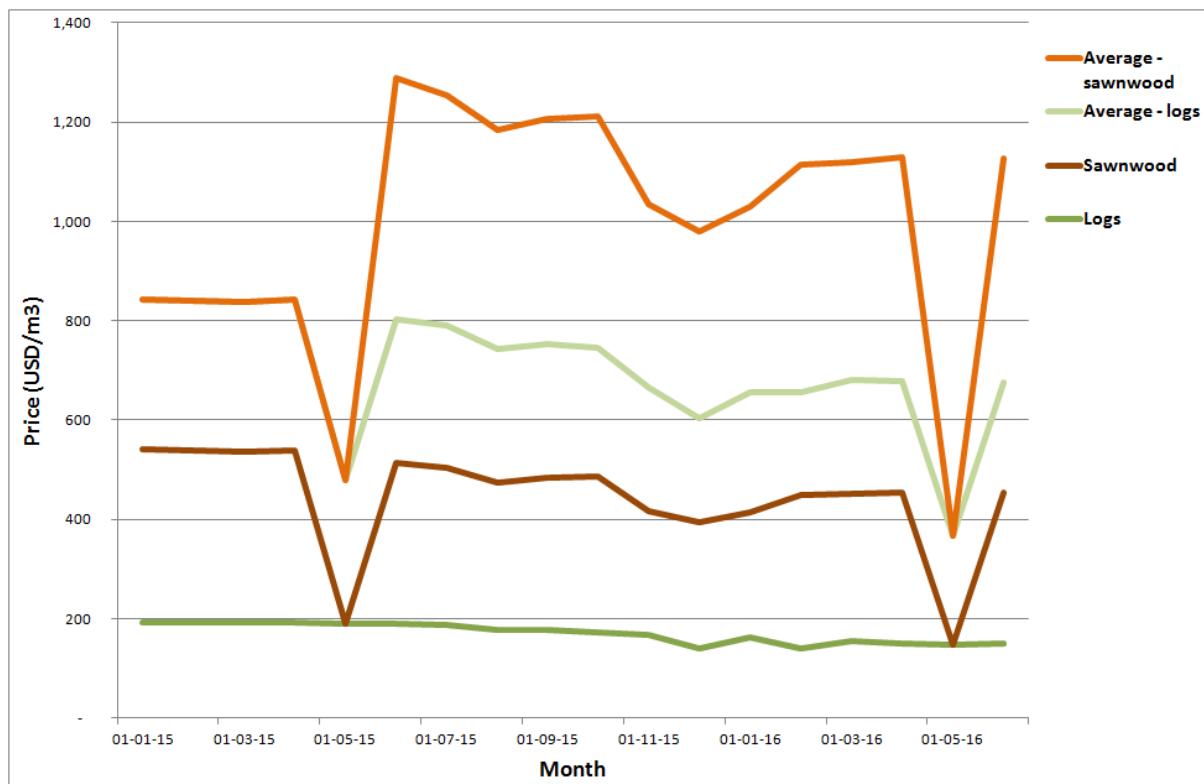

## 2.20 Ekaba - *Tetraberlinia bifoliolata*

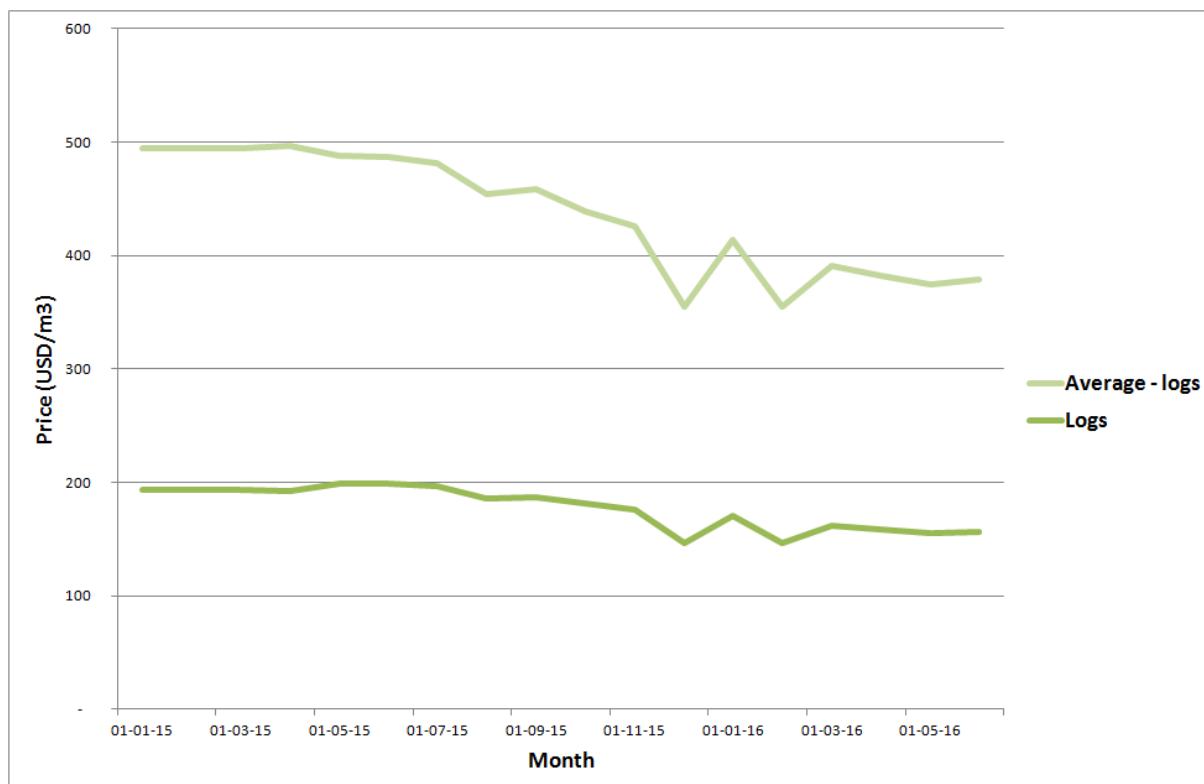

## 2.21 Emien - *Alstonia boonei / congoensis*

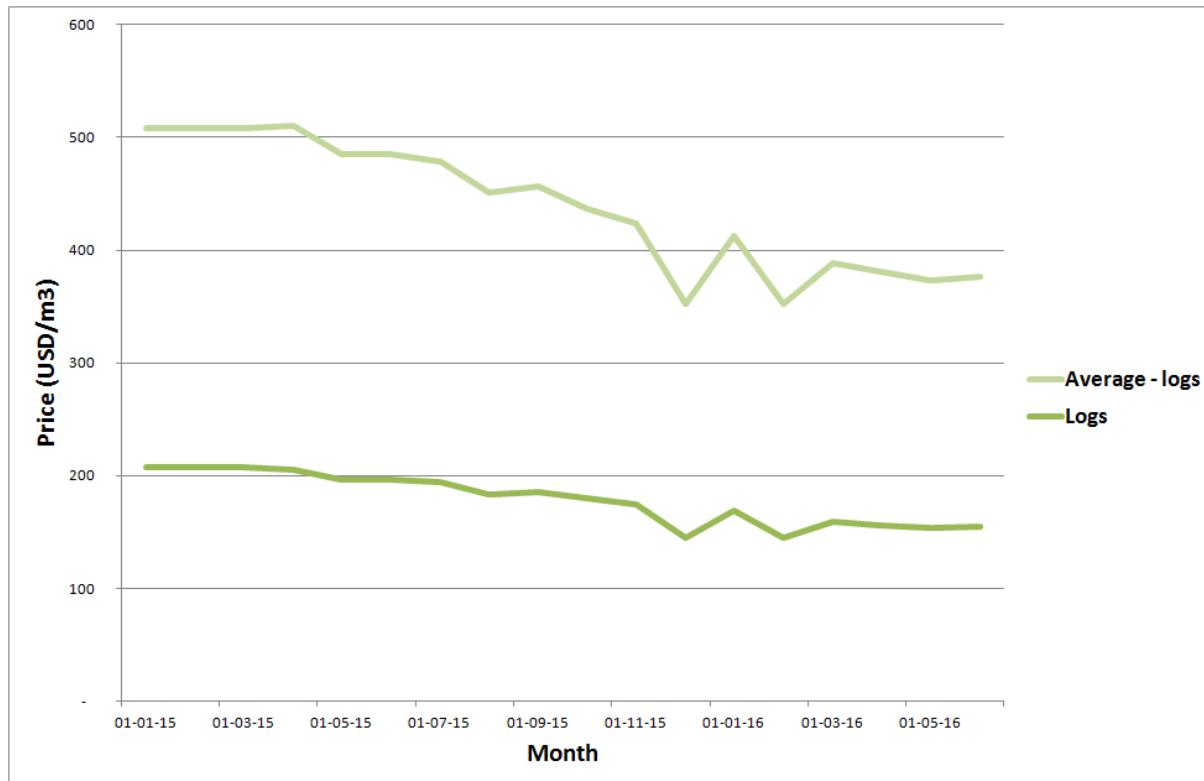

## 2.22 Etimoe - *Copaifera mildbraedii*

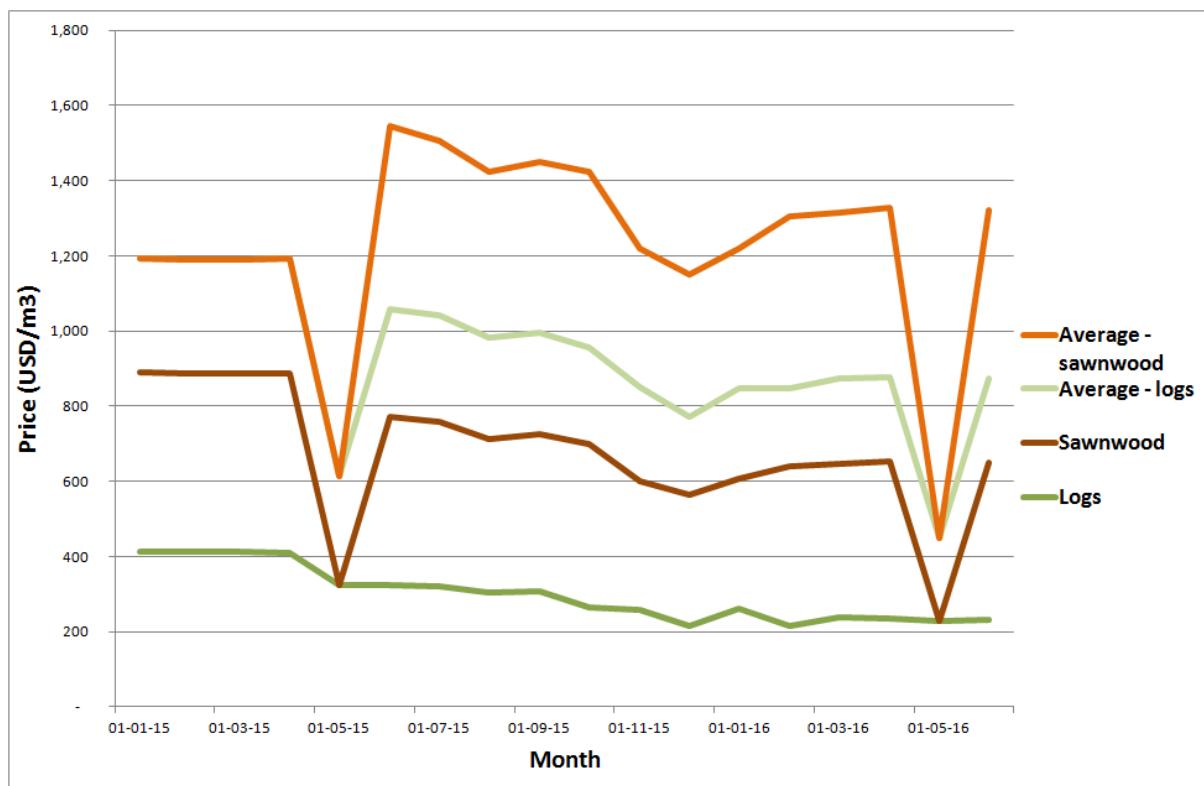

## 2.23 Eveuss - *Klainedoxa gabonensis*

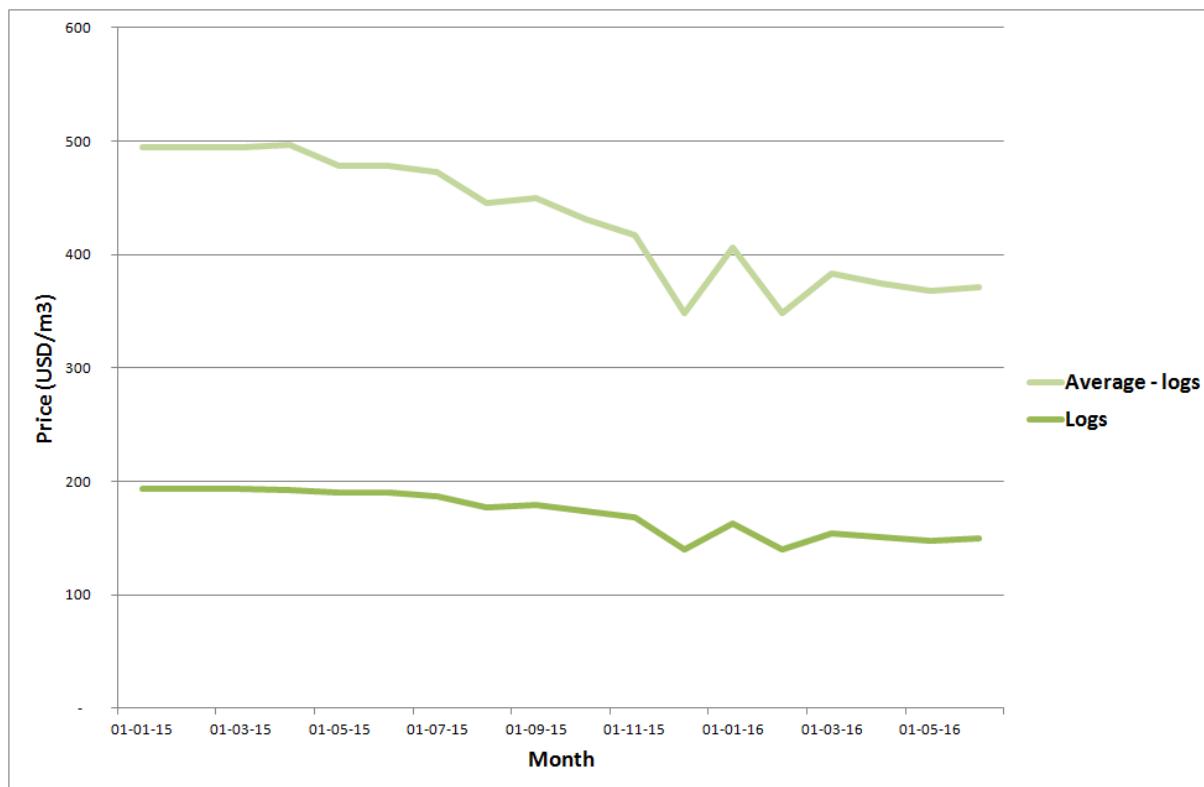

## 2.24 Faro - *Daniellia klainei*

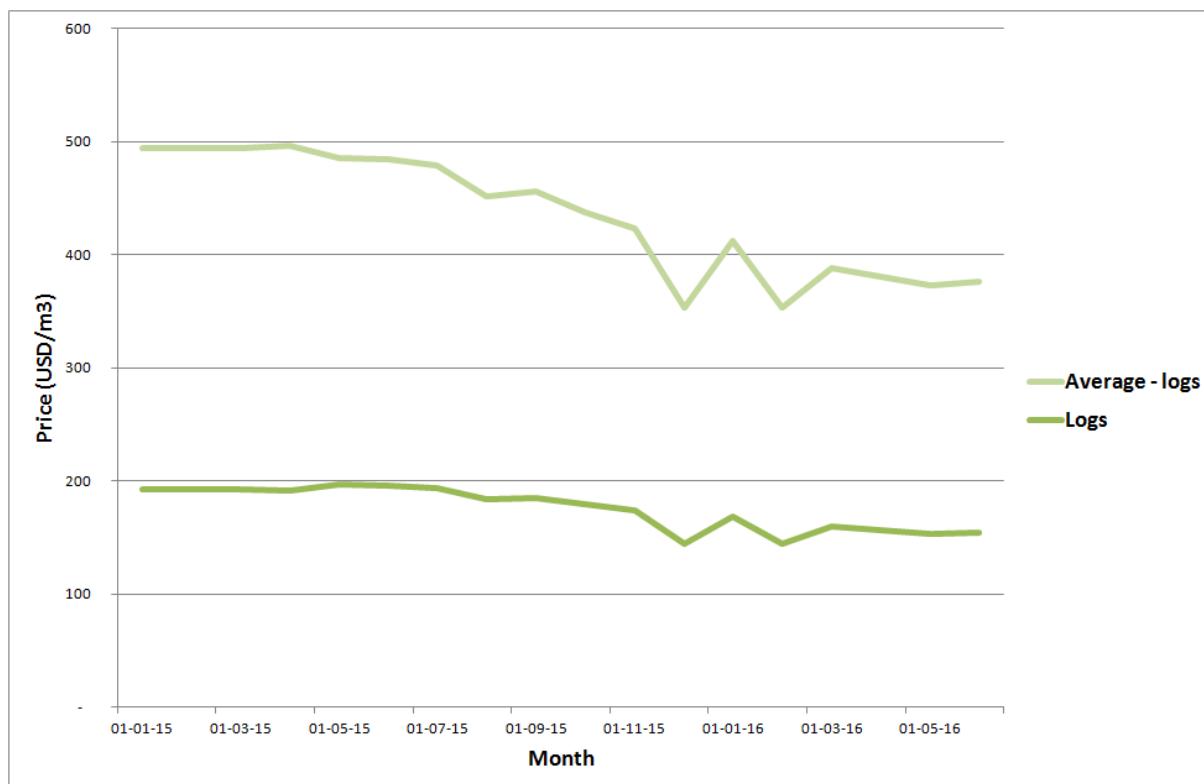

## 2.25 Framire - *Terminalia ivorensis*

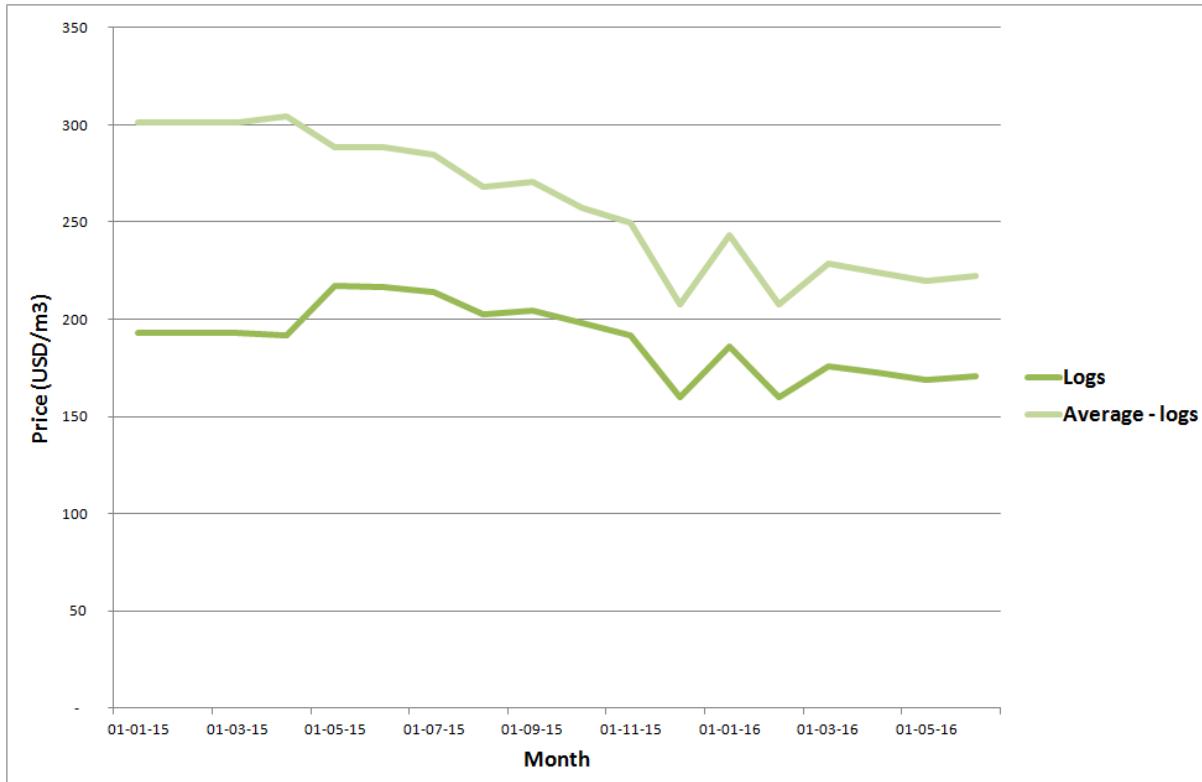

## 2.26 Fromager (Ceiba) - *Ceiba pentandra*

## 2.27 Idewa - *Haplormosia macrophylla*

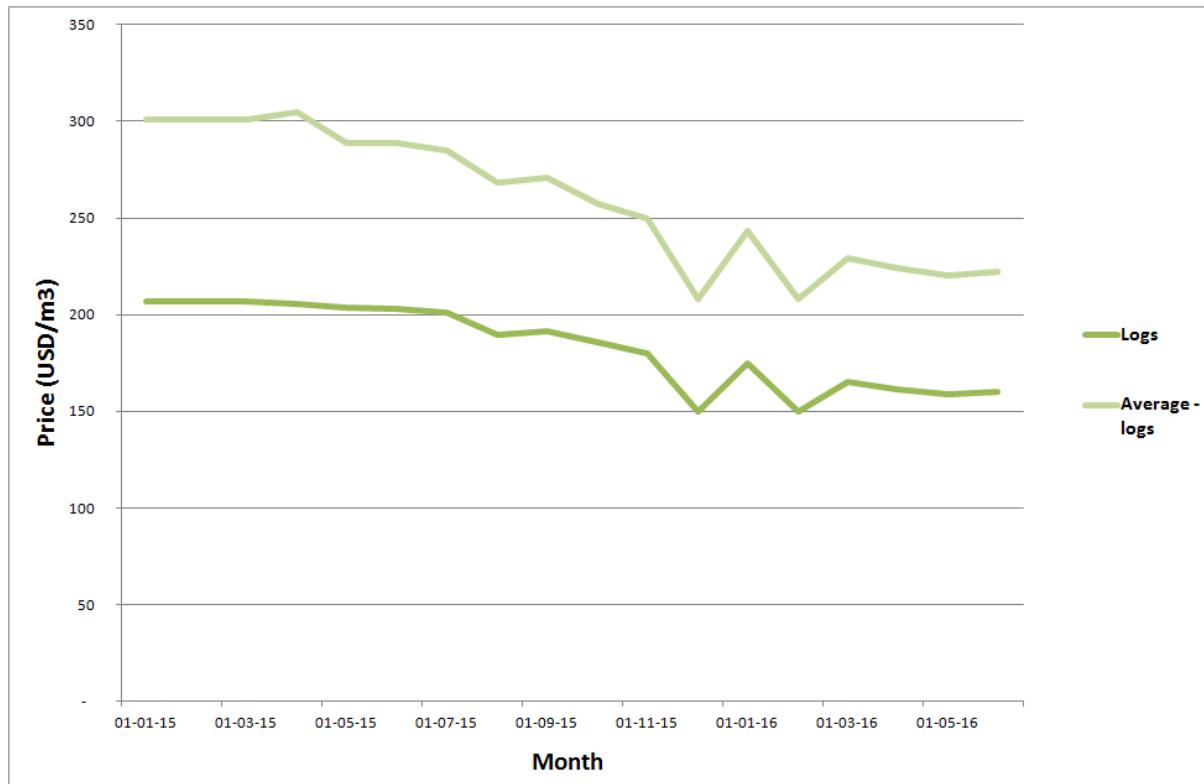

## 2.28 Ilomba - *Pycnanthus angolensis*

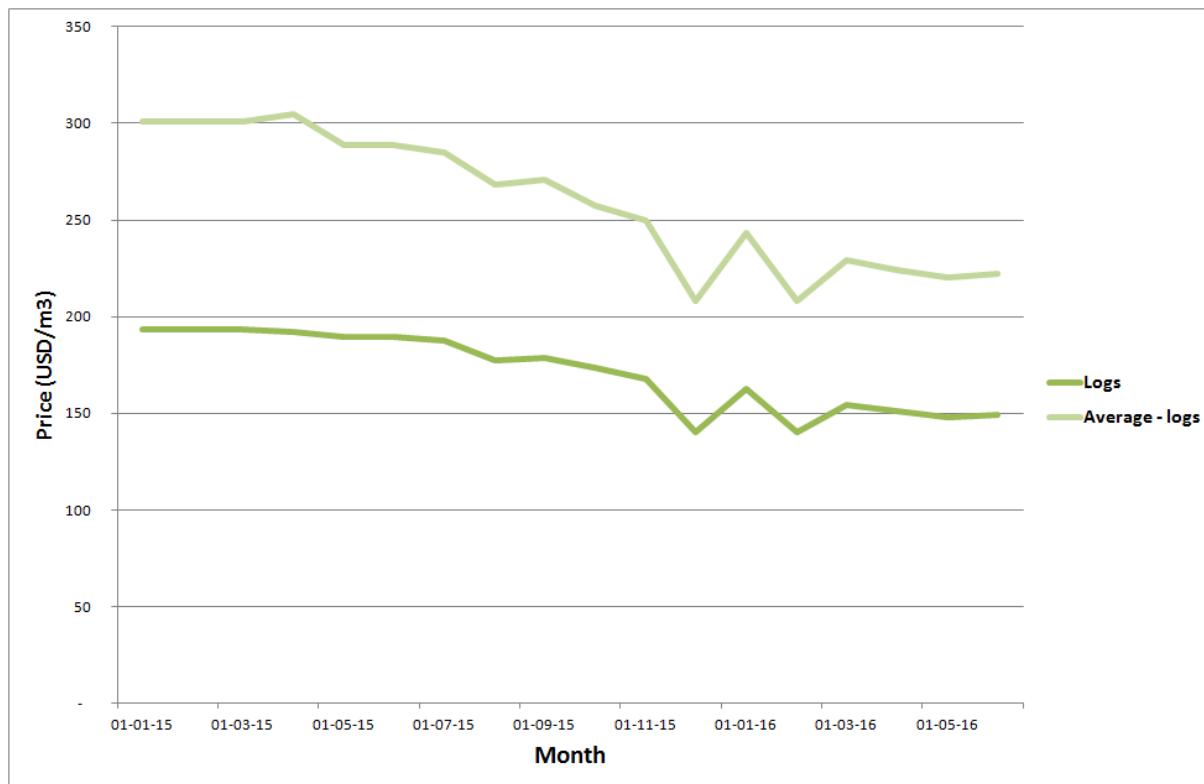

## 2.29 Iroko - *Milicia excelsa*

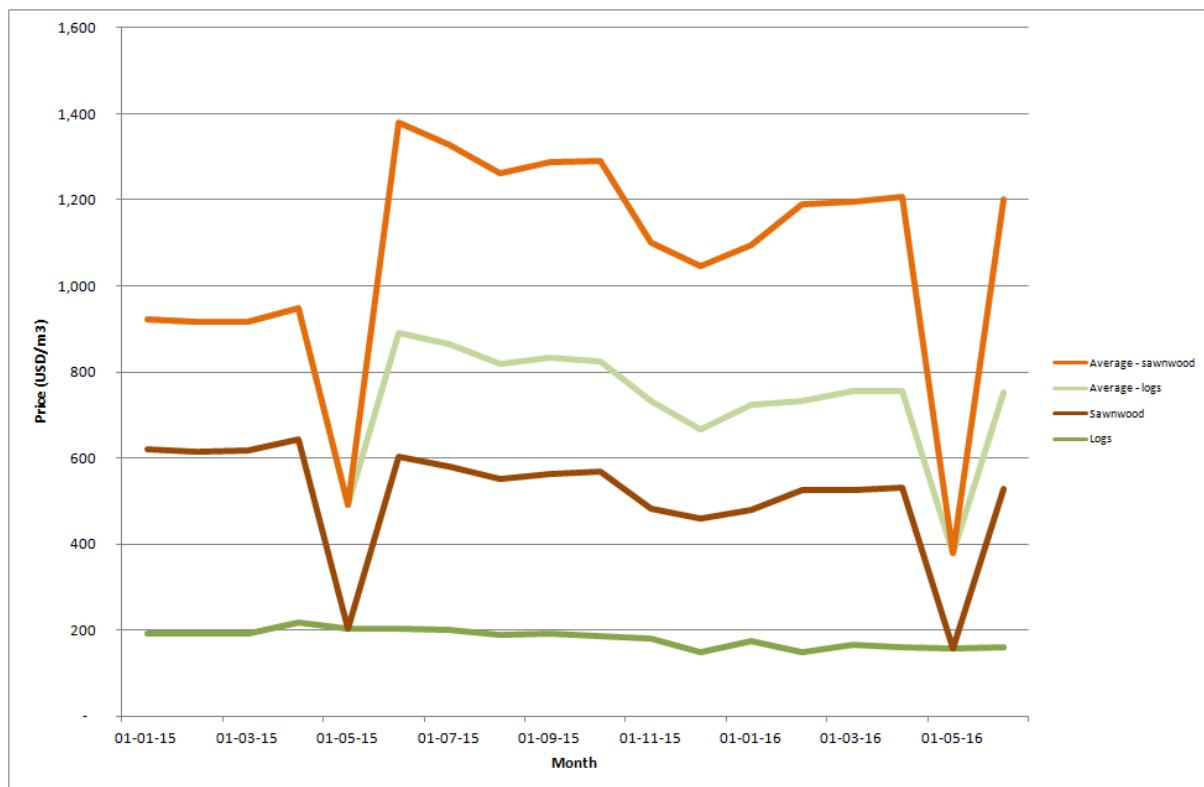

### 2.30 Kanda - *Beilschmiedia spp*

### 2.31 Kondroti - *Rhodognaphalon brevicuspe*

## 2.32 Kosipo - *Entandrophragma candollei*

## 2.33 Kotibe - *Nesogordonia papaverifera*

## 2.34 Koto - *Pterygota bequaertii*

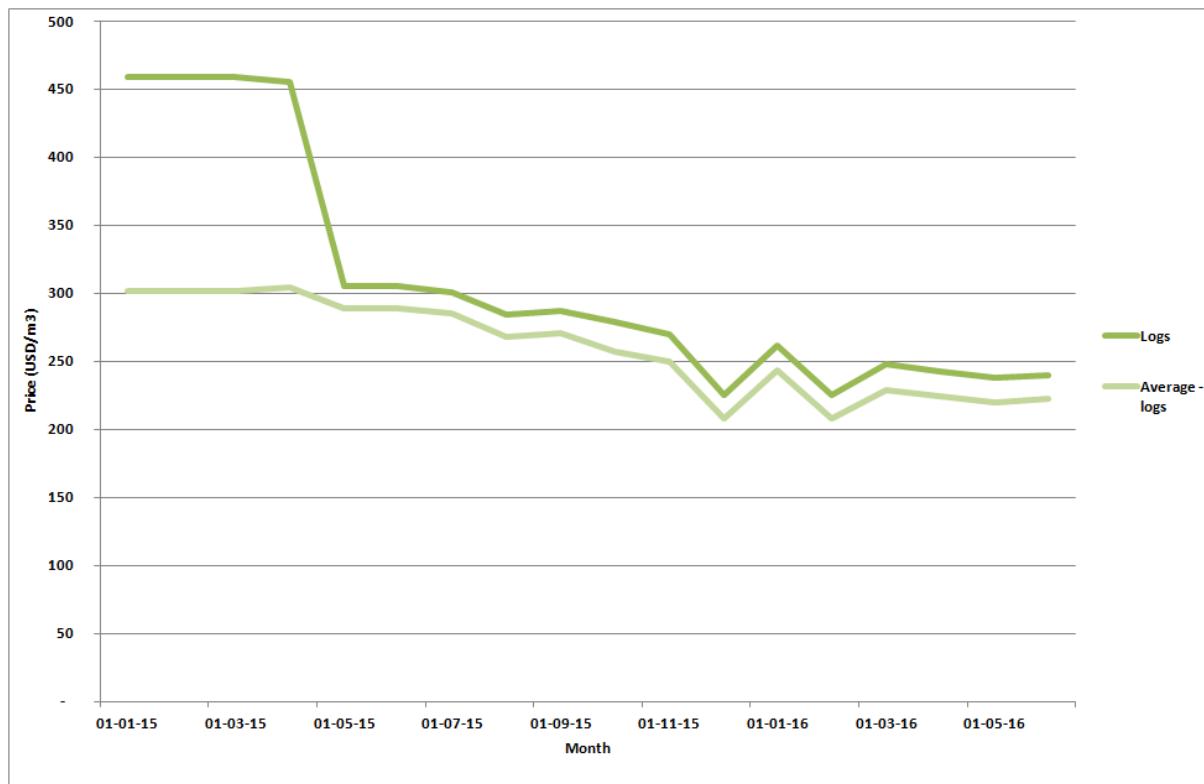

## 2.35 Limba/ Frake - *Terminalia superba*

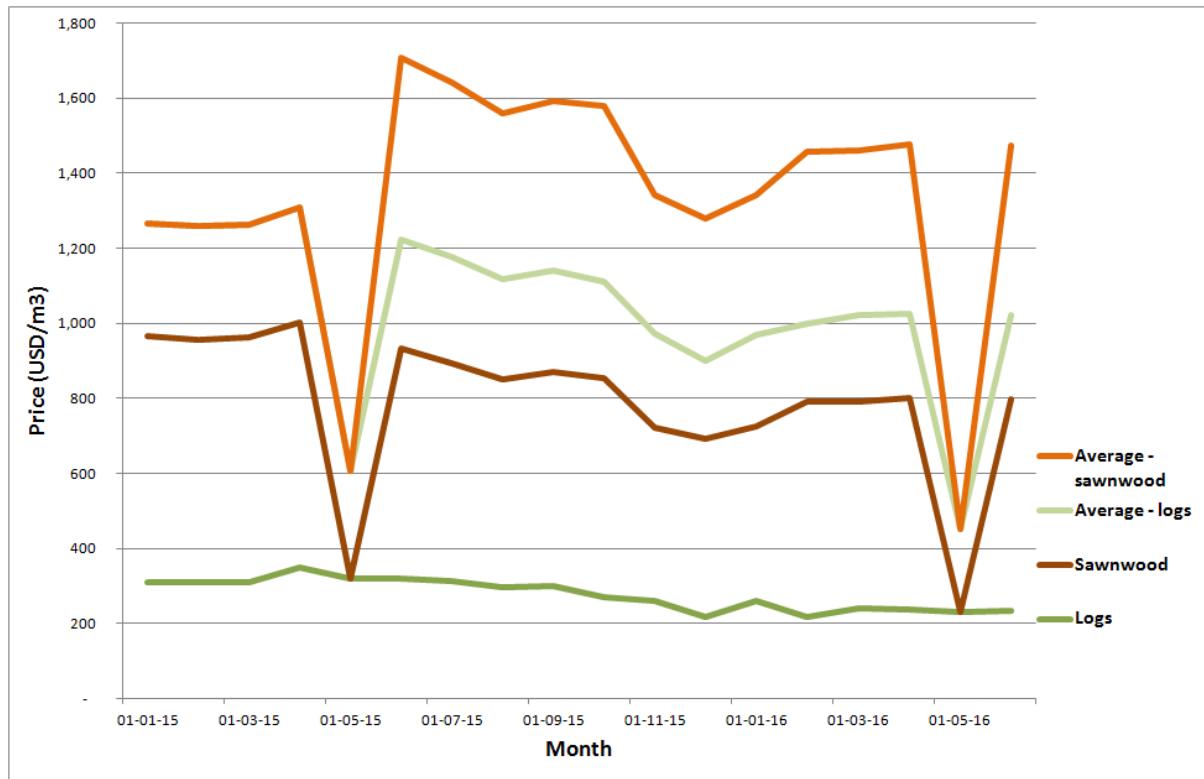

## 2.36 Limbali - *Gilbertiodendron dewevrei*

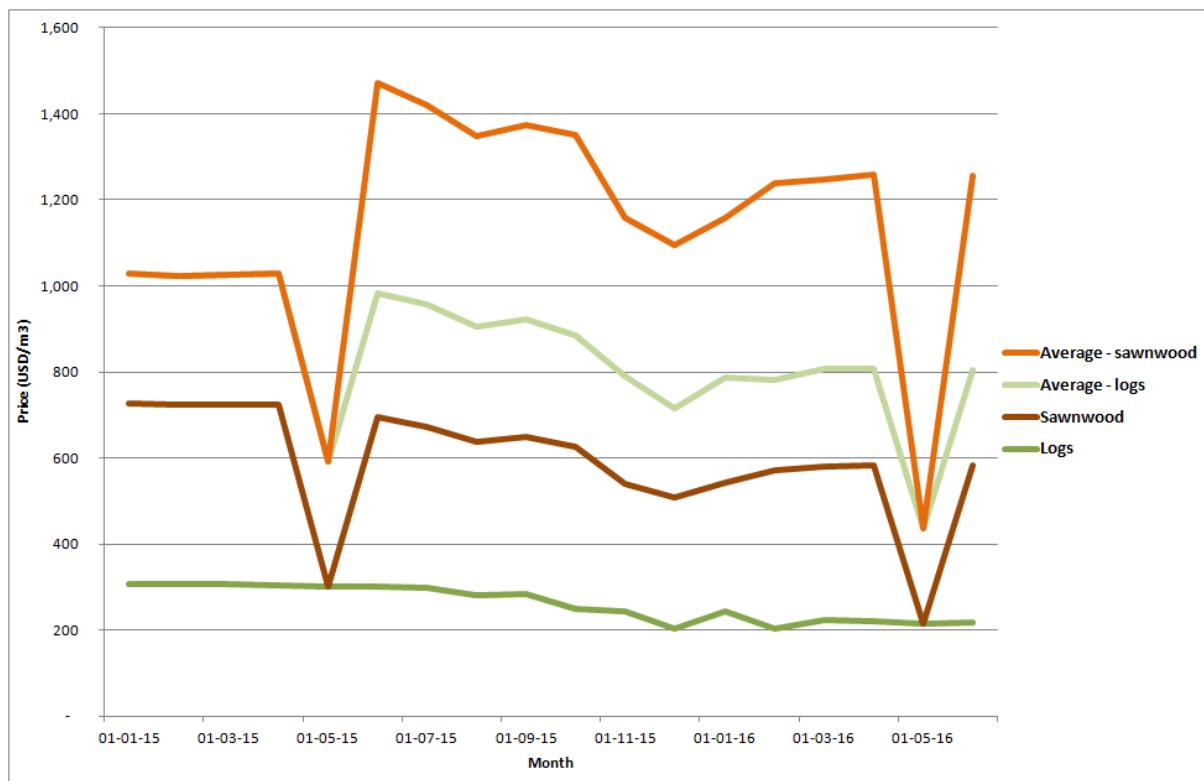

## 2.37 Longhi - *Gambeya spp*

## 2.38 Makore / Duka - *Tieghemella heckelii/ africana*

## 2.39 Movingui - *Distemonanthus benthamianus*

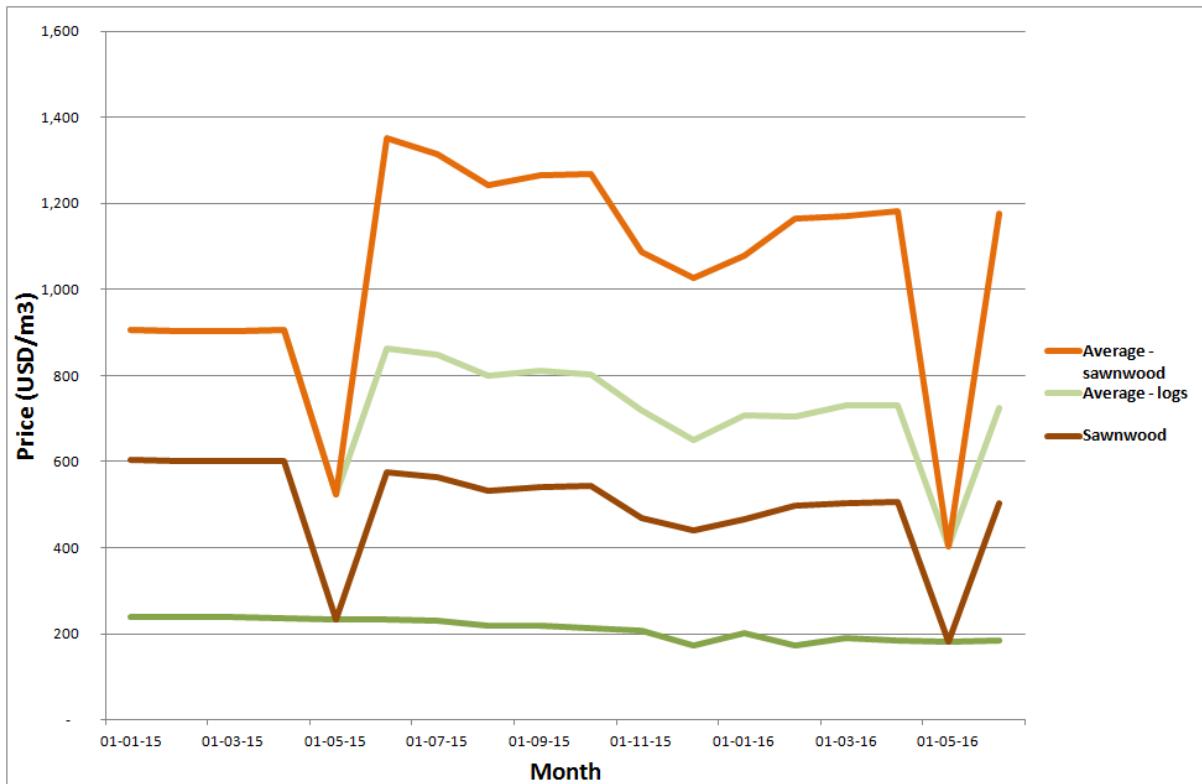

## 2.40 Niangon - *Tarrietia densiflora*

## 2.41 Oboto - *Mammea Africana*

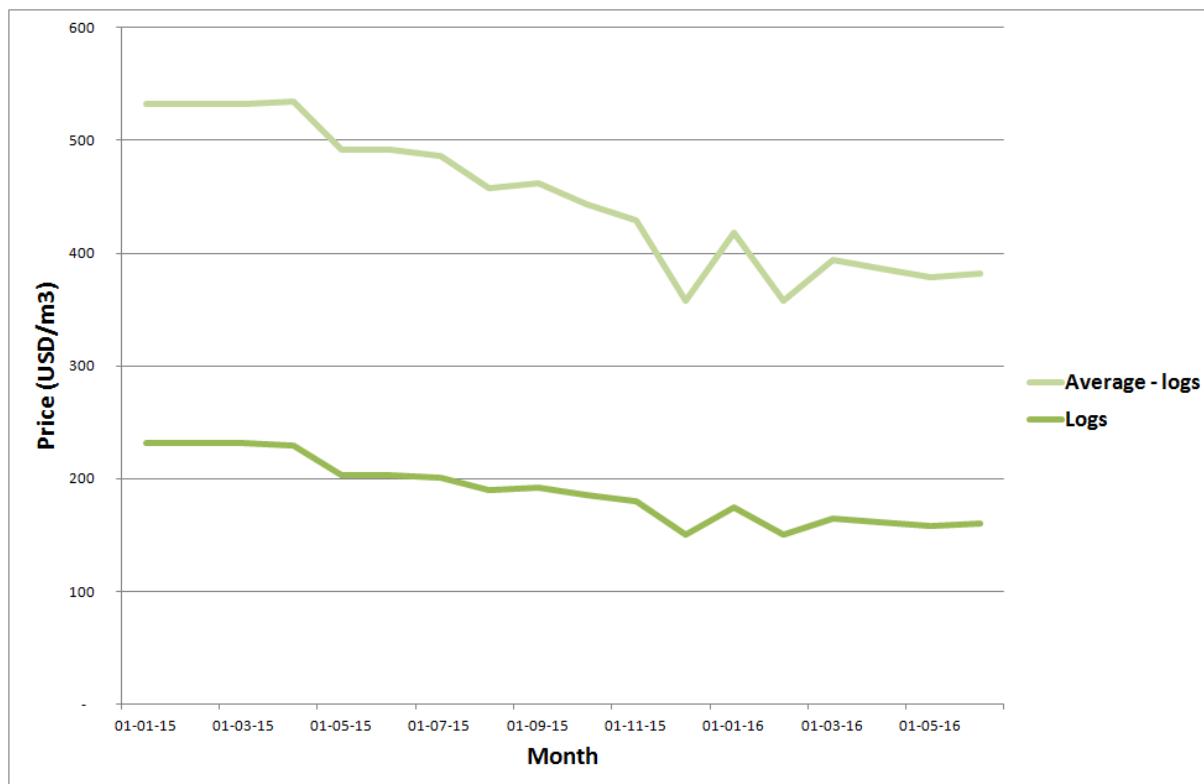

## 2.42 Olon - *Fagara heitzii*

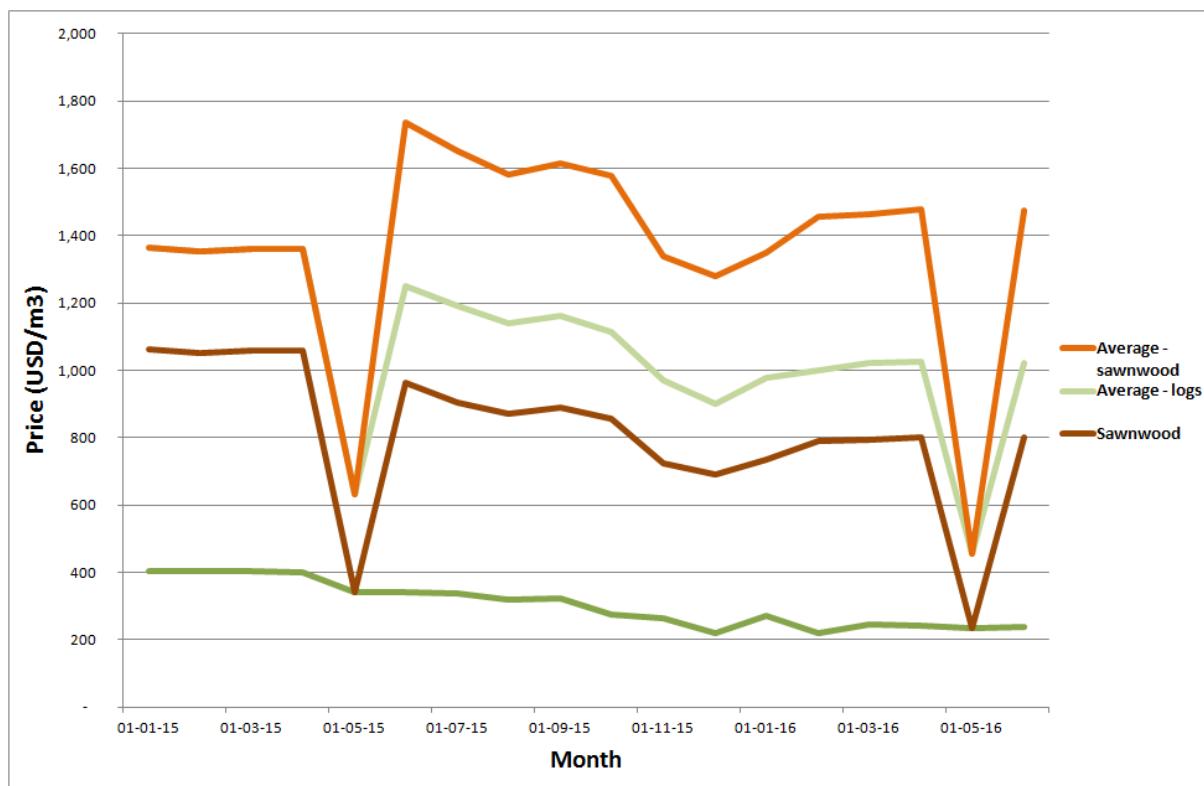

## 2.43 Ozouga - *Sacoglottis gabonensis*

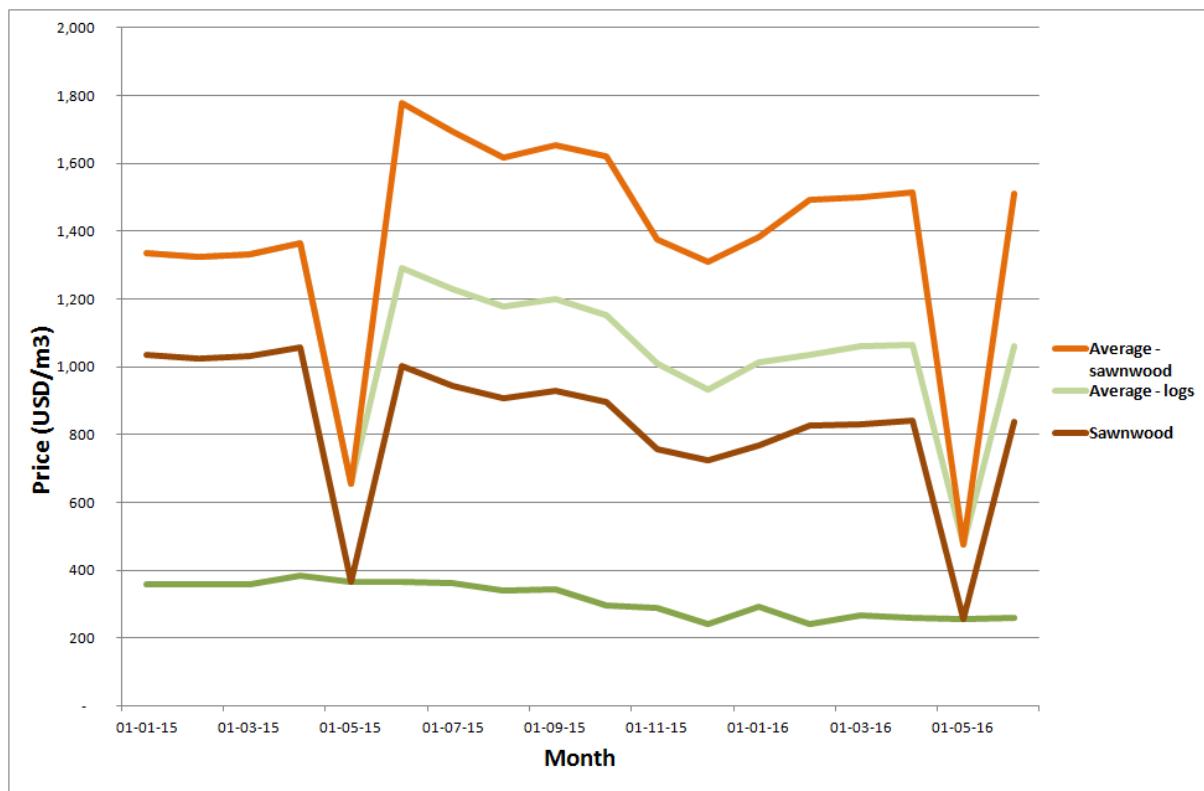

## 2.44 Parinari - *Tarrietia excelsa*

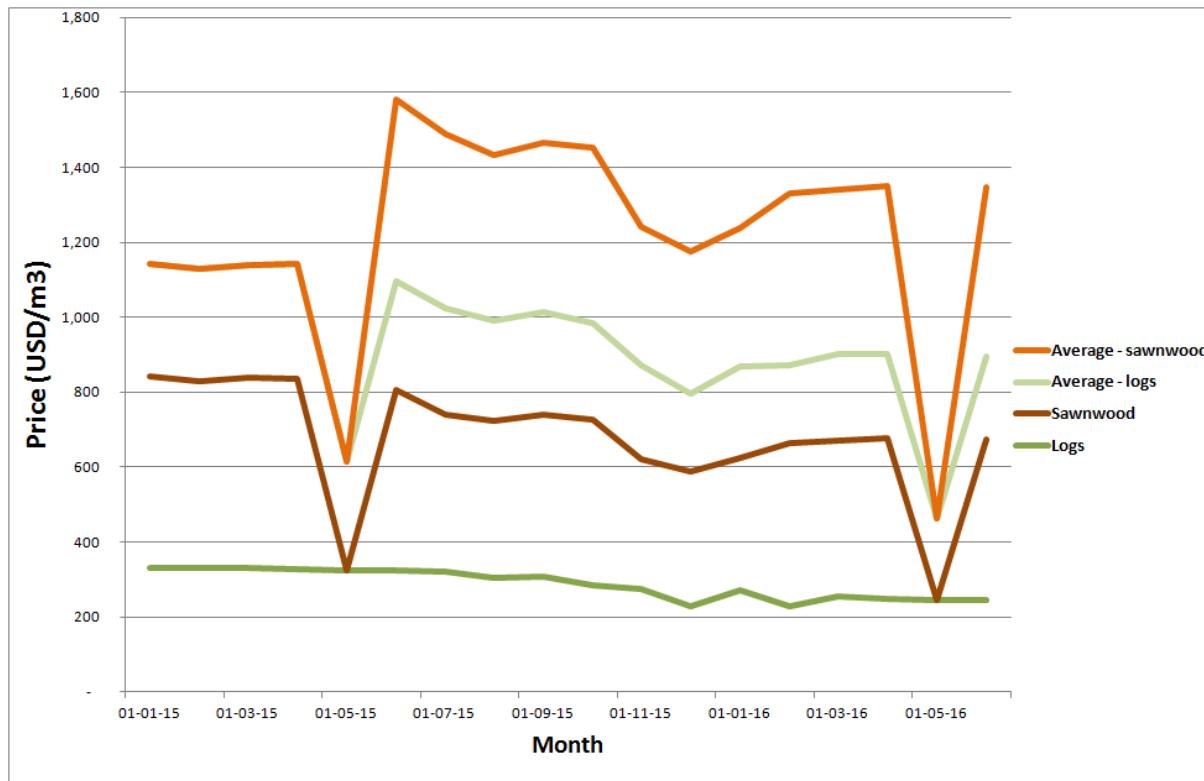

## 2.45 Sapelli - *Entandrophragma cylindricum*

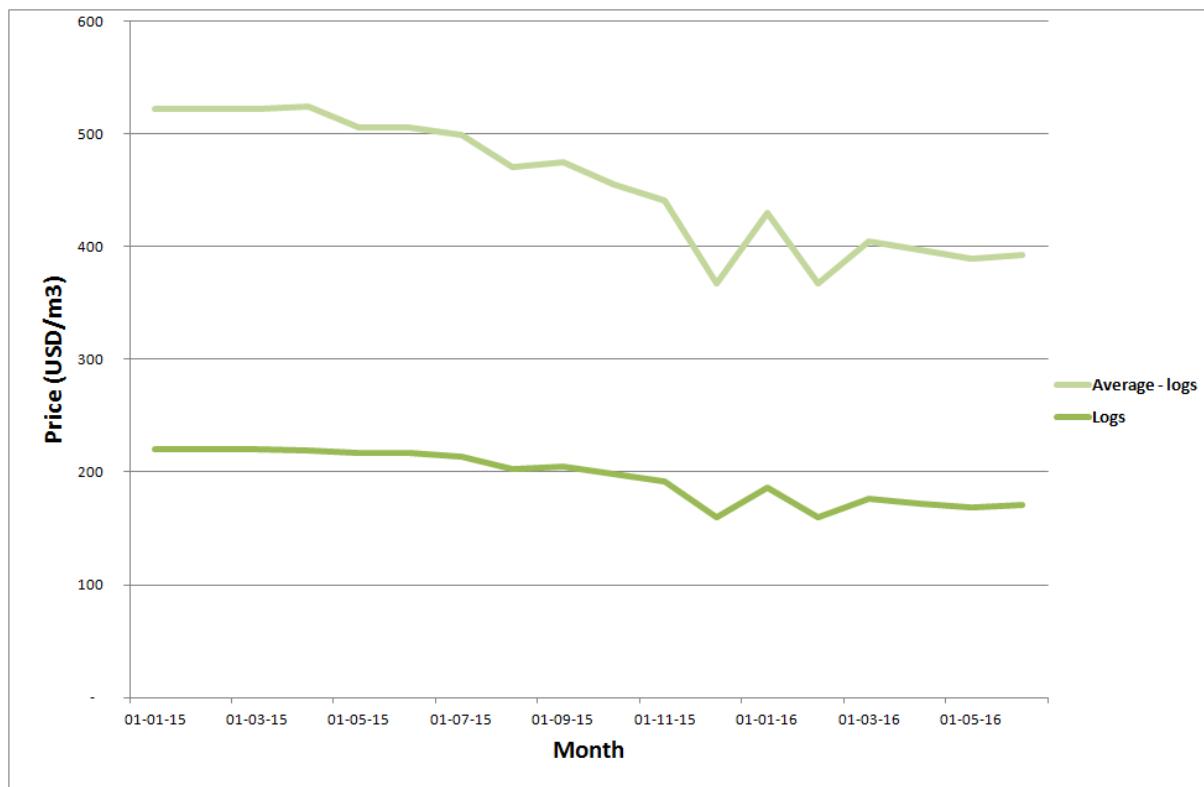

## 2.46 Sipo - *Entandrophragma utile*

## 2.47 Tali - *Erythrophleum suaveolens*

## 2.48 Tetra / Sikon - *Tretraberlinia tubmaniana*

## 2.49 Tiama - *Entandrophragma angolense*
